Specialist Waste Services (Including Hazardous Waste)

What our agreement covers

This agreement offers the provision of specialist waste services including the collection and disposal of various hazardous wastes, scheduled pharmaceutical waste collections, the provision of an end disposal facility for various waste types and the provision of collection and disposal of various waste types.

The agreement can be utilised via a direct call-off with your preferred supplier, based on the terms published within this user guide, or via a further competition exercise amongst all suppliers that are capable of meeting your requirement.

Take advantage of our unique agreement benefits

- There is a wide range of rates available which allow for direct call-off opportunities for all types of specialist waste services.
- Service providers on this agreement have been selected for their experience and ability to offer the provision of specialist waste services.
- The prices in the pricing schedules are ALL INCLUSIVE - there are no hidden charges!
- This agreement is compliant with UK procurement legislation - we've done the work, so there's no need for you to run a full procurement process.

What to do next

We are always happy to help so if you need more information or additional documents before accessing the framework you can request these from the team. If you have already used the agreement just let the team know by completing and returning a Confirmation of Award document; this is so we make sure our suppliers are performing to a high standard and that our customers' needs are being met.
