PRODUCT SAFETY DATA

PRODUCT NAME: GLASS PAINT

1. **Identification of the substance/preparation**

Product Identification:

Trade Name:- GLASS PAINT

CAS No:- N.A. - Intentional mixture

2. **Components which may be considered hazardous**

None notifiable.

3. **Hazards Identification**

Not classified as hazardous according to the Chemicals (Hazard Information and Packaging for Supply) Regulations 1996.

4. **First Aid Measures**

Eye Contact:- Immediately flush with clean water/eye bath solution, holding eyelids apart, for 10 to 15 Minutes. If irritation occurs seek medical attention.

Skin Contact:- Remove any contaminated clothing. Wash affected area with soap and water. Seek medical attention if irritation occurs.

Ingestion:- Wash out mouth with water. Do not induce vomiting. Give water to drink. If patient vomits, turn to recovery position. Seek immediate medical attention.
* Never give anything by mouth to an unconscious person.

Inhalation:- No adverse effect expected. If discomfort is experienced remove to fresh air.

5. **Fire Fighting Measures**

Flammability:- Non-flammable.

Suitable Extinguishing Media:- Foam, dry chemical, water spray, carbon dioxide.

Thermal Decomposition Products:- Combustion gases may include oxides of carbon/nitrogen/sulphur.

Special Equipment for Fire-fighters:- Full protective clothing/breathing apparatus.

6. **Accidental Release Measures**

Environmental Precautions:- Do not allow to enter drains or water courses. Unauthorised discharge must be immediately alerted to appropriate regulatory body.

Personal Precautions:- See section 8 for personal protective equipment. As with all chemicals ensure sufficient ventilation and prevent skin and eye contact. Spillages may create slippery conditions underfoot.

Clean Up Procedure:- Absorb onto sand or other absorbent material and dispose in accordance with local/national regulations.

7. Handling and Storage

Handling:- Avoid unnecessary contact. This product presents a low hazard, but exposure should be minimised by good industrial hygiene and safety procedures.

Storage:- Store in closed containers at ambient temperatures. Protect from frost

8. Exposure Controls/Personal Protection

Eyes:- Chemical safety goggles/face shield.

Skin:- Chemical resistant gloves are recommended as a precautionary measure.

Inhalation:- Protection not required under conditions of normal use. Ensure adequate work-place ventilation.

9. Physical and Chemical Properties

Physical state @ 25°C - Liquid

Solubility in Water - Soluble

BDS – 17.5-18.5%

pH - 4.0-5.5

10 Stability and Reactivity

Stable under conditions of normal use. Avoid contact with strong oxidising materials and concentrated mineral acids. Avoid high temperatures.

11 Toxicological Information

No available data on formulated product. Expected to have a low order of toxicity.

12 Ecological Information

No available data on formulated product.

13. Disposal Considerations

Via an authorised contractor to an approved waste disposal site. Treat container as for substance.

14. Transport Information

Not classified as hazardous for transport.

15 Regulatory Information

No labelling is required for this material by the Chemicals (Hazard Information and Packaging for Supply) regulations 1996, but in accordance with good industrial hygiene and safety procedures, we recommend the following safety phrases:

S24/25 - Avoid contact with skin and eyes.

S36/37/39 - Wear suitable protective clothing, gloves and eye/face protection.

16. Other Information

The information on this Product Safety Data Sheet reflects the latest information and data that we have on hazards, properties, and handling of this product under the recommended conditions of use.
