DIRECTOR'S ANNUAL REPORT 2010/11

INTRODUCTION

The combined turnover of Stores sales, Direct orders, Period contracts (frameworks) and contracts placed on behalf of specific customers (Commissioning), totalled just over £546m for the year 2010/11, an increase of £26m on 2009/10 (5%). This is an excellent result to achieve during a difficult economic climate.

Stores business for 2010/11 showed turnover of just over £37m, an increase of 3.84% and, as in 2009/10, largely consisting of increased sales to non-Member customers.

Growth in Direct orders, which are those orders placed by the organisation on behalf of customers, results in a significant increase of 14.98% at almost £60m.

Period Contracts, which are mainly call-off framework contracts, increase slightly by 1.47% from £330.9m to £335.7m.

Contracts placed by our two Strategic Procurement and Commissioning buying groups for "one-off" projects exceed £113m, an increase on last year of 12.37%.

TRADING RESULTS

The chart below provides a detailed analysis of the trading results compared to the previous year.

Annual Turnover Statistics 2010/11

	Stores		Direct Orders		Period Contracts		Strategic Procurement and Commissioning	
	2009/10	2010/11	2009/10	2010/11	2009/10	2010/11	2009/10	2010/11
	£000s	£000s	£000s	£000s	£000s	£000s	£000s	£000s

Stores

Stores sales of just over £37m, an increase of 3.84% on last year, was a more than satisfactory result, especially when taking into account the difficult economic climate both members and non-members had experienced over the past twelve months.

The growth in Stores sales over the last ten years is illustrated in the following chart:

% Growth	6.5%	2.9%	6.1%	4.72%	13.04%	3.8%	2.86%	8.0%	8.31%	3.84%

Stores Prices

The chart below illustrates the price inflation for items held within Stores since 2001/02. The increase of 4.6% for 2009/10 was due, as reported at the time, to oil and paper price increases plus the exchange rate of Sterling against the Euro/Dollar.

01/02	02/03	03/04	04/05	05/06	06/07	07/08	08/09	09/10	10/11
2.15%	-2.02%	-1.23%	-0.35%	-0.18%	0.95%	1.66%	0.75%	4.6%	2.34%

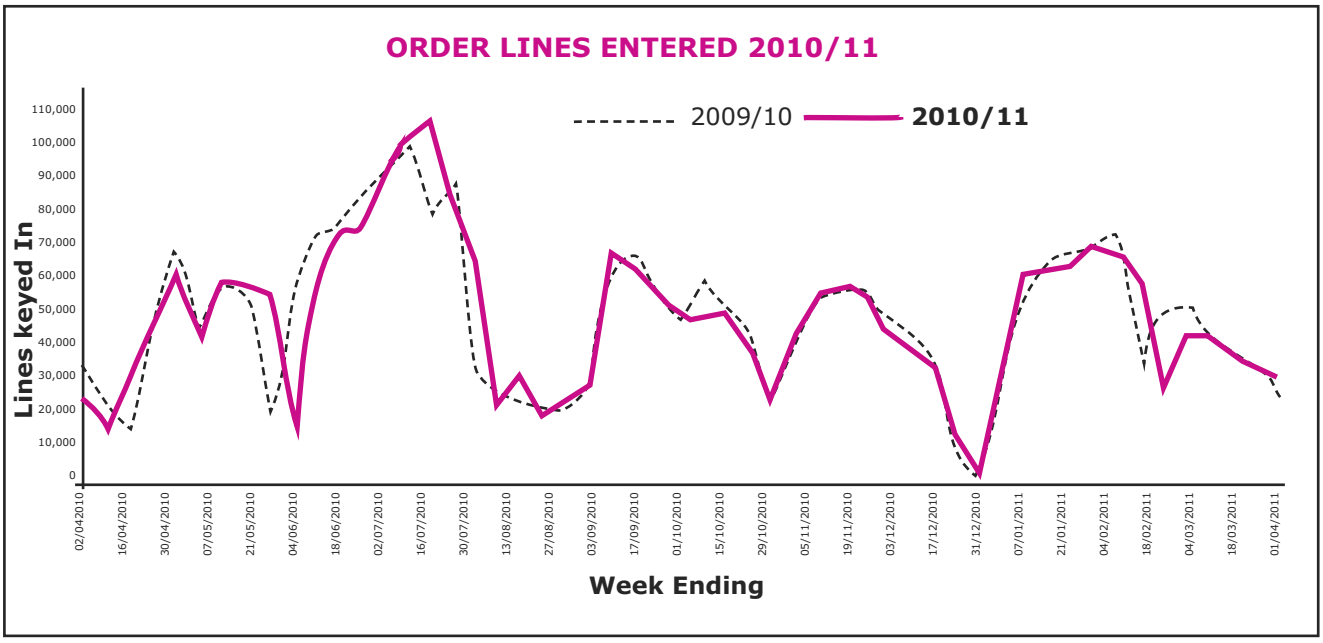
Service Levels to Customers (Stock Availability)

ESPO consistently exceeds its target of 98% for stock availability throughout 2010/11. During the summer 'peak' of orders received from schools, the percentage availability dropped to 96% for one week and then recovered to 98% plus, over the next four weeks.

Another minor variance around December occurred when salt supplies were affecting stock availability performance due to the severe adverse weather conditions. This lasted for about six weeks and was entirely due to the salt supply restrictions imposed by the Highways Agency.

If salt is removed from the equation, ESPO's overall performance was above target.

The graph below denotes the Stores order input figure (volume not value) for 2010/11, which reflects significant peaks and troughs, a feature of schools' ordering pattern.



Direct Orders

Sales via Direct orders rose from £52.093m to £59.898m with notable increases in Norfolk and Leicestershire District Councils. However, the most significant increase was in the non-member sector which rose from £29.929m in 2009/10 to £42.667m in 2010/11. This was mainly attributable to a large order for specialist vehicles of £17m for a customer in the North West.

Period Contracts

There were no significant variances in period contracts across the membership. The most significant increase, as with Direct orders, was in Other Users which showed an increase from £78.234m in 2009/10 to £96.266m in 2010/11. A large proportion of this, over £14.645m, could be attributed to the use of the Temporary Staffing contract, and just over £10m on the Pro5 contract for Outdoor Playground Equipment. Almost £9m could be attributed to Other Users participating in the Energy Section's Auto and Heating Oils contract.

Commissioning/Consultancy

Examples of the contracts which comprise the £113.333m are as follows:

1 A five year contract for a Schools Management Information System for Norfolk County Council with a total value of £11m.

2 A five year contract for a Planned and Preventative Maintenance contract for Cambridgeshire County Council with a value of £22.5m.

3 A four year National Framework for Estates Consultancy Services with a total value of £2m.

4 A five year contract for the transfer of Residential Homes for Older People into the independent sector with a total value of £10m.

5 A four year framework contract for CCTV Maintenance for district councils in Cambridgeshire and Suffolk with a total value of £2m.

In total twenty five strategic projects were completed in 2010/11 compared with sixty five in 2009/10. Although the number of projects in 2010/11 was lower, the value in terms of the expenditure against the resultant contracts was higher than the preceding year. There are currently forty nine projects representing work in Progress.

Annual Expenditure per 1000 Head of Population

The chart below shows the annual expenditure per 1000 head of population for ESPO's seven Member Authorities for the year:

Member Authority	Population	Central Stores		Direct Orders		Period Contracts		Strategic Procurement and Commissioning	
		2009-10	2010-11	2009-10	2010-11	2009-10	2010-11	2009-10	2010-11
		£	£	£	£	£	£	£	£
Cambridgeshire	552,655	4,743	4,779	4,164	3,239	41,454	45,034	8,948	13,498
Leicester City	279,923	8,756	9,081	13,489	10,860	164,152	153,792	4,215	9,253

(Population based on 2001 Census)

Marketing Activity

The national procurement landscape is the primary driver for much of ESPO's strategic marketing, which tends to concentrate on contracting and framework contracts rather than product-based marketing activity.

In particular, the continued development of Pro5[1] and the roll out of national frameworks highlights the need for more collaborative working by the members of Pro5. This includes the profiling and marketing of the national framework and contract solutions which can be found on both the ESPO and Pro5 websites.

The Corporate Account Manager role, introduced in 2009 primarily to ensure ESPO's national framework contracts are appropriately featured and promoted to non-school customers, is proving successful. Further consideration will be given to this role with Pro5 and the national picture firmly in mind.

The education sector (pre-school through to further education) has been the dominant customer sector for ESPO and its catalogue business. Since the formation of the Consortium in 1981 the education sector has represented between 75% and 80% of catalogue product sales. Every other year since 1990 through an independent market research company, a market survey is undertaken into customer perceptions of ESPO within the education sector. The survey tests customer perceptions of ESPO within the education sector, schools and colleges, through its range of products, services, prices and the general buying experience. Many of the service and product developments have originated from the results of this work. The key outcome was that 99% of member area schools, and 95% of non member area schools consider ESPO to be an impartial purchasing resource. Furthermore 85% of member and 87% of non member area schools say ESPO prices are excellent/competitive. As per previous surveys we again intend to use the findings to improve our service offering to schools.

Exhibitions and Events

During the year ESPO features at a number of events and exhibitions. The vast majority were from an ESPO marketing perspective, but the *SOPO Conference and the *Procurex Conference are both national events and as such, Pro5 were represented with ESPO providing staffing and resource along with the other Pro5 members.

Events included:
Business Managers Conference - Norfolk
Eco Conference - Norfolk
Meet the Buyer - Norfolk
SOPO Conference – Brighton*
Procurex Conference – Birmingham*
Maths Conference - Northamptonshire
Primary Heads Conference - Leicestershire
Foundation Base Exhibition - Leicestershire
Schools Showcase Exhibition - Lincolnshire
Maths Conference - Cambridgeshire
Recently Qualified Teachers Conference - Cambridgeshire
Early Years Conference - Cambridgeshire
Head Teachers Conference - Cambridgeshire
Meet the Buyers Conference - Cambridgeshire
Procurement Surgery/Training Conference - Cambridgeshire
Bursars Conference - Nottinghamshire
Bursars Conference - Warwickshire
Procurement Foundation Stage Event - Leicester City

In February 2011 ESPO was asked by the Department for Education, in partnership with them, to explore a national solution for Systematic Synthetic Phonics. This specialist curriculum subject (part of the Wider Literacy Scheme) was launched on the back of the DfE's Schools White Paper 'The Importance of Teaching' published in November 2010. The outcome of the tenders are due back in June 2011.

[1] Pro5 consists of Central Buying Consortium (CBC), ESPO, North Eastern Purchasing Organisation (NEPO), West Mercia Supplies (WMS) and Yorkshire Purchasing Organisation (YPO). Further information is available from www.espo.org

Significant Matters

The main IT business systems were successfully upgraded during the year creating a new platform for further IT and systems development. The impact on the business during the year included a new methodology for order placing. This new platform will enable further developments in warehouse functionality during 2011/12 including improvements in warehouse management. This will enable the introduction of handheld technology and zone picking, which will contribute to efficiency improvements in the way products are handled.

Further systems development such as Customer Relationship management and material requirement planning are under consideration.

With the Coalition Government's agenda for government to procure once, a similar ethos for Local Government is an obvious next stage. The Managed Services for Temporary Agency Resources (MSTAR) framework, commissioned by the Local Government Professional Services Group (LGPSG)[2] in order that local government and education establishments (as well as other wider public sector organisations) can access a national framework for Managed Services[3] for the provision of temporary agency resources, is an example of the new approach. ESPO is managing this contract on behalf of the Pro5 group of professional buying organisations and on behalf of the local government sector. The establishment of the framework is being supported by the Cabinet Office and the Department for Education as well as the LGPSG. The MSTAR framework is a complex procurement project because of the degree of collaboration involved, the aggregation of business requirements across the wider public sector and the potential value. This national framework will enable customers to identify and appoint a Managed Service Provider for their temporary staffing requirements. The framework was advertised at a value of between £2-4 billion during the framework lifetime. Contract award was made in the first week of the new financial year. MSTAR, and other frameworks currently being developed for schools and local authorities, represent a new stage in the evolving business model for ESPO.

The contracts for gas and electricity were jointly tendered with Laser, a consortium based in the south east, in a procurement project representing approximately one third of local authorities in England. Collaborative exercises were also undertaken with central government agencies. These contracts have continued to attract new clients and represent about £80 million of annual delivered energy to ESPO's customers.

Against a background of the changing organisational landscape in which local authorities operate and the challenging financial landscape, it was felt appropriate for an independent review of ESPO to be undertaken. This process has incorporated an assessment of the current situation, clarifying the role of local and national public sector procurement, including the extent to which ESPO should lead. It is proposing the establishment of new working arrangements which will allow the Member Authorities to set the overall strategic direction of the Consortium and receive assurance on performance issues, whilst enabling the Director of ESPO to lead the organisation in an era of change and opportunities.

Overall, a key objective has been to enable a greater degree of co-ordination and integration of procurement activity across the Member Authorities.

Whilst the outcome of the review was not finalised at the year end, Member Authorities have reinforced ESPO's remit of remaining focused on offering value, providing benefits over and above those offered by other collaborative procurement groups, internal procurement teams and commercial buying organisations. Other outcomes of the review will be progressed and implemented in the coming year.

---

[2] The Local Government Professional Services Group (LGPSG) is a stakeholder group representing and supporting local authorities across England in delivering savings from the procurement of professional services.

[3] 'Managed Services' means where a Supplier, known as an MSP (Managed Service Provider) takes on responsibility for managing the Customer's temporary staffing supply chain and/or resource pool.

Risk Management

ESPO needs to ensure that it not only understands its core strategic business and associated risks, but also ensures the safeguarding of its reputation, its assets, and the interest of its customers and stakeholders. This will be achieved by identifying and co-ordinating ESPO's response to all potential threats and disruptions to its business.

During 2011 ESPO has programmed to deliver an effective and practical Business Continuity Programme using BS25999, which identifies a uniform benchmark for good practice using a five stage business continuity lifecycle.

The introduction of such a robust business continuity programme will ensure that ESPO will recover from any disruption with minimal impact on employees, clients, and the reputation of the organisation and will be able to provide resilience assurance to its customers.

Improved management of operational risk is being implemented using a business case methodology and a project planning process. The objectives of this new process are to:

- enable forward planning in terms of resources and timing;
- assess and monitor budget implications in terms of costs and revenues;
- enable outcomes to be reviewed and learning achieved;
- evaluate potential risks of individual projects and consider actions to mitigate.

The business case process is intended to be both challenging and open to scrutiny by Member Authorities. Timetabling will be managed by a new Compliance Division through a project planning methodology. Compliance will be responsible for legal, procedural and compliance methodologies and will 'manage' project planning to ensure OJEU compliance and delivery of on time tender approval.

Any identification of abnormal risk, over and above normal project risk, either through procurement complexity, value, or other identified risk, will be escalated and managed by ESPO's senior management team. Significant project risk will be referred to the Management Committee for decision.

Staffing

In reporting another successful year it is important to recognise the contribution and dedication of ESPO's staff. Fifty of our staff, (14% of all staff) have worked with the organisation for more than twenty years, and a further 28% have been with ESPO for more than ten years. In the challenging environment in which we work staff commitment is an important contribution to ESPO's success. In our thirtieth year we should particularly recognise and salute the staff who have been with ESPO from the beginning. So to Janet, Bryan, Derek, and William and in particular a special mention must be made of Linda and Gordon, who have worked for Leicestershire for more than forty years each, thank you.

ESPO STATEMENT OF ACCOUNTS 2010/11

Explanatory Forward

Introduction

The published accounts of the Eastern Shires Purchasing Organisation (ESPO) are presented in this booklet.

About ESPO

ESPO is a Joint Committee set up under Section 102 of the 1972 Local Government Act. The member authorities at 31 March 2011 were Cambridgeshire, Leicestershire, Lincolnshire, Norfolk and Warwickshire County Councils together with Leicester and Peterborough City Councils.

ESPO's main objective is the provision of a professional, comprehensive, value for money purchase, contracting and supplies service for member authorities and other public bodies mainly within the Midlands and East of England regions under the provisions of the Local Authorities (Goods and Services) Act 1970.

In financial terms ESPO has a statutory obligation to recover its operating costs but to keep these at a minimum commensurate with the level of service required and the long-term development of the organisation. Any surpluses which do accrue are distributed to member authorities after a transfer to reserves held as a working balance in line with a formula agreed by ESPO's Management Committee.

Performance in 2010-2011

Despite the difficult trading circumstances predicted last year these have not significantly affected ESPO results for this year. The growth in the use of products and services that was achieved over the last two years has been maintained. ESPO's extensive and varied customer base has enabled it to manage the effects of the economic recession and of tighter financial restrictions on local authorities. This has been achieved by increasing our turnover with authorities adjoining our core member region.

The use of our products and services by member authorities and by other customers, as measured by the value of their combined procurement activities, amounted to £546 million in 2010/11. A more detailed commercial assessment of these activities during this financial year is contained within the ESPO Annual Report for 2010/11 which is presented annually to the Management Committee.

The statutory accounts reflect the results of authorities' procurement activities through the value of invoiced sales which this year were reduced by 2.9% to achieve a total of £86.5 million. This reduction in turnover solely reflects lower energy prices. Turnover on core sales of Stores products remains strong and has recorded an increase in the year of 3.8%. Some of the inflationary increases from suppliers have been absorbed and as a result the Store's margin was reduced by £0.24 million despite higher volumes. Income from Central Purchasing activities has increased by 17%. Customers' usage of the procurement contracts and consultancy services increased as local authorities sought to offset the effects of budget spending restrictions.

ESPO continues to develop fresh initiatives to support member authorities. It is adopting an innovative approach to engaging with potential customers at an early stage in the contracting process and is extending its collaborative contracting arrangements under the name of "Pro5" together with four other similar local authority purchasing organisations. The benefits of this approach are reflected in the Central Purchasing income. The combined spending power of this group of activities has resulted in price and service benefits to our member authorities and to other customers.

A tight control has been maintained over spending both on staff and operating expenses, but there have been inflationary increases on distribution and establishment costs. This control of expenditure combined with increased income has resulting is a Net Surplus in the Management Accounts (as shown in Note 24 to this Statement of Accounts) of £3.1 million, a record amount for ESPO.

These results have enabled ESPO to establish additional reserves of £2.3 million that have strengthened the organisation's ability to meet future demands, to fund improvements to operational efficiencies and anticipated organisation changes.

A revaluation of the Grove Park premises at the end of the year has resulted in a decreased valuation of £0.6 million which has reversed the increase reported in 2009/10 of £0.6 million. In the last four months on the year, Deloitte undertook a strategic review of the role and purpose of ESPO with the intended outcome strengthening the organisation for the anticipated future needs of member authorities and other customers. Implementation of the recommendations from the review will be implemented in 2011/12.

Future Prospects

It is currently too early to evaluate the effect on ESPO of spending restrictions on local authorities introduced by the coalition government. In order to mitigate possible adverse effects of local authority spending restrictions on future sales volumes, promotion of catalogue products and contract services to non-member authorities continues across the midlands and other selected regions. To assist with further growth in general catalogue sales and offer competitive prices to customers, there has been a reduction in the mark up on selected products. This has been supported by a cost reduction/efficiency improvement programme.

The range of contracts tendered in collaboration with members of Pro 5 has been extended and working with central government agencies it is intended to provide improved value for money for customers during this difficult period. An example of such procurement projects is the recent award of the National Temporary Staffing Framework (MSTAR). This has a potential value of between £2-4 billion over the frameworks lifetime. Examples of other national frameworks that are work in progress include catering, cleaning and grounds maintenance for schools, IT hardware and services.

ESPO's Accounts

This is the first year that ESPO has prepared the Statement of Accounts in accordance with the Local Government Code which has adopted IFRS from 2010/11 together with some interpretations for the local government sector. The impact of changes in accounting policies is detailed in the notes to the financial statements.

The following accounting statements represent the Eastern Shires Purchasing Organisation's accounts for the 2010/11 financial year and have been prepared on a going concern basis. The statements and notes are presented in a way that is intended to meet the common needs of most users with the object of showing the results of the stewardship and accountability of elected members and management for the resources entrusted to them.

Movement in Reserves Statement:

This statement shows the movement in the year on the different reserves held by the consortium, analysed into "usable reserves" (i.e. those that can be applied to fund expenditure) and other reserves. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the authorities services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the amounts required to be charged to the General Fund Balance. The Net Increase/Decrease before transfers to Earmarked Reserves line shows the Statutory General Fund Balance before any discretionary transfers to or from earmarked reserves undertaken by the authority.

Comprehensive Income and Expenditure Statement:

This statement shows the accounting cost during the year of providing services in accordance with generally accepted accounting practices. It is fundamental to the understanding of the consortium's activities in that it summarises trading income and expenditure for the twelve months ending 31 March 2011 of all functions for which ESPO is responsible.

The consortium recovers operating costs by the addition of an oncost within the prices charged to customers and by retrospective rebates from suppliers. For dividend allocation purposes, this account is further analysed between "Stores" and "Central Purchasing". The former relates to general consumable products which are supplied from stocks held by ESPO at its warehouse. Central Purchasing covers all other trading activities, such as procuring more specialised products, providing procurement consultancy services and arranging framework contracts under which ESPO customers order directly from suppliers.

Balance Sheet:
The Balance Sheet shows the value as at the balance sheet date of the assets and liabilities recognised by the consortium. The net assets of the consortium (assets less liabilities) are matched by the reserves held by the consortium. Reserves are reported in two categories. The first category of reserves is usable reserves, i.e. those reserves that the consortium may use to provide services, subject to the need to maintain a prudent level of reserves. The second category of reserves is those that the consortium is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains or losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line "Adjustments between accounting basis and funding basis under regulations").

Cash Flow Statement:
This Cash Flow Statement shows the changes in cash and cash equivalents of the consortium during the reporting period. The Statement shows how the consortium generates and uses cash and cash equivalents as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the consortium are funded from the receipts for services provided by the consortium. Investing activities represent cash outflows that have been made for resources which are intended to contribute to the consortium's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the consortium.

Authorisation of Accounts:
The Statement of Accounts presents a true and fair view of the financial position of the authority at 31 March 2011 and its income and expenditure for the year ended 31 March 2011.

Date of Authorisation:
The accounts were authorised for issue 29 September 2011 by D. Summersgill. This was the last date when events after the balance sheet date have been considered.

D. Summersgill

Interim Director of ESPO

Date: 29/09/2011

B Roberts

Consortium Treasurer

Date: 29/09/2011

The Eastern Shires Purchasing Organisation Consortium's Responsibilities

The consortium is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs; for the consortium that officer is the Director of Corporate Resources of Leicestershire County Council who is the Consortium Treasurer;
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- Approve the Statement of Accounts.

These accounts were approved at a meeting of the Consortium Management Committee on 29 September 2011.

Dr R K A Feltham CC
Chairman, ESPO Management Committee

Date: 29/09/2011

The Consortium Treasurer's Responsibilities

The Consortium Treasurer (Director of Corporate Resources of Leicestershire County Council) is the Chief Financial Officer for ESPO and is responsible for the preparation of the consortium's Statement of Accounts in accordance with proper accounting practices as set out in the CIPFA/LASAAC Code of Practice in Local Authority Accounting in the United Kingdom 2010/11.

In preparing this Statement of Accounts for the year ended 31 March 2011, the Consortium Treasurer has:

- Ensured that suitable accounting policies have been selected and applied consistently;
- Made judgements and estimates that were reasonable and prudent;
- Complied with the local authority SORP.

The Consortium Treasurer has also ensured that:

- Proper accounting records have been maintained and kept up to date;
- Reasonable steps were taken for the prevention and detection of fraud and other irregularities.

1,802	Cash or cash equivalents at the end of the reporting period	4,984	16

Notes to the Accounts

1. Accounting Policies

a. Introduction

The principles and practices of accounting require a Statement of Accounts to be prepared which give a true and fair view of the financial position and performance and cash flows of the organisation. The Statement of Accounts are prepared with due regard to the following:

- Understandability – Allowing the stakeholder to interpret the financial position of the organisation.
- Relevance – Providing relevant financial information which aid user's to form predictions about the outcomes of past, present, and future events or to confirm or correct prior expectations.
- Materiality - An item of information is material to the Statement of Accounts if its misstatement or omission might reasonably be expected to influence assessment of the organisation.
- Reliability - Providing financial information that rests on the faithfulness with which it represents what it purports to represent, coupled with an assurance for the user that it has that representational quality, is free from material error, is neutral and which has been prudently prepared.
- Comparability – The Statement of Accounts are consistent and are comparable with prior years.

The Statement of Accounts, other than the Cash Flow Statement have been prepared on an Accruals basis, the effect of transactions and other events are recognised when they occur and they are recorded in the accounting records and reported in the financial statements in the periods to which they relate.

The Statement of Accounts have also been prepared on the assumption that Eastern Shires Purchasing Organisation will continue in operational existence into the foreseeable future.

b. General Principles

The Statement of Accounts summarises ESPO's transactions for the 2010/11 financial year and its position at the year end of 31 March 2011. ESPO is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2003 (updated 2011), which those regulations require to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2010/11 and the Best Value Accounting Code of Practice 2010/11, supported by International Financial Reporting Standards (IFRS) and statutory guidance issued under section 12 of the 2003 Act.

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

The purpose of this statement is to explain the basis for the recognition, measurement and disclosure of transactions and other events in the organisation's accounts.

c. Accruals of Income and Expenditure:

The organisation's trading activity is accounted for in the year that it takes place and not when cash payments are made or received. In particular:

Revenue from the sales of goods is recognised when ESPO transfers the significant risks and rewards of ownership to the purchaser and it is likely that economic benefits associated with the transaction will flow to ESPO.

Revenue from the provision of services is recognised when ESPO can measure reliably the percentage of completion of the transaction and it is probable that economic benefits associated with the transaction will flow to ESPO.

Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption; they are carried as inventories on the Balance Sheet.

Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.

Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.

Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

Income and expenditure are posted to the relevant service revenue account unless they represent capital receipts or capital expenditure.

d. Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in one month or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In Cash Flow Statement, cash and cash equivalents may be shown net of any temporary bank overdrafts that are repayable on demand and form an integral part of the organisation's cash management.

e. Exceptional Items

When items of income and expenditure are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the note to the accounts, depending on how significant the items are to an understanding of ESPO's financial performance.

f. Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policy or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current or future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events or conditions on the organisation's financial position or financial performance. When a change is made it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy has always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

g. Charges to Revenue for Non-Current Assets

For statutory accounting purposes, services, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets during the year:

- Depreciation attributable to the assets used by the relevant service
- Revaluation and impairment losses on assets used by the service where there are no accumulated revaluation gains in the Revaluation Reserve against which the losses can be written off
- Amortisation of intangible fixed assets attributable to the service

For the determination of its income requirements, ESPO is not required to include depreciation, revaluation and impairment losses or amortisations. For management accounting purposes, these are replaced by revenue contributions to the Earmarked Repairs and Renewals Reserve and Earmarked Property Maintenance Reserve for the replacement of non current and intangible fixed assets.

h. Employee Benefits

Benefits Payable During Employment
Short term employee benefits are those due to be settled within 12 months of the year end. They include such benefits as wages and salaries, paid annual leave and paid annual sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the organisation. An accrual is made for the cost of holiday entitlement (or any form of leave eg time off in lieu) earned by employees but not taken before the year end which employees carry forward into the next financial year. The accrual is made at the wages or salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

The Local Authority Pension Scheme
In accordance with the International Accounting Standard 19 – Employee Benefits (IAS 19), ESPO is required to disclose certain information concerning assets, liabilities, income and expenditure related to pension schemes for its employees. This information is included within the Leicestershire County Council Statement of Accounts for 2010/11 as staff are employees of Leicestershire County Council in the council's role as servicing authority for the organisation and no separate apportionment is made of pension scheme assets and liabilities in respect of ESPO staff.

Discretionary Awards
ESPO has restricted powers to make discretionary awards of retirement benefits in the event of early retirement. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision tomake the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

i. Events after the Balance Sheet date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events

- those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

j. Financial Instruments

Financial Liabilities
Financial liabilities are recognised on the balance sheet when ESPO becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective rate of interest is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that ESPO has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Financial Assets
ESPO possesses only one type of financial Asset - Loans and receivables. These are assets that have fixed or determinable payments but are not quoted in an active market.

Loans and receivable are recognised on the Balance Sheet when ESPO becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and subsequently measured

at amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest received are based on the carrying amount of the asset, multiplied by the effective rate of interest for the instrument.
For most of the loans that ESPO has, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest); and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the relevant service (for receivables specific to that service) or the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The impairment is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the assets original interest rate.

Any gains or losses that arise on the de-recognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

k. Classification of Assets and Liabilities

(i) Assets are classified as current where the following circumstances apply:

- ESPO expects to realise the asset or intends to sell or consume it in its normal operating cycle,
- ESPO holds the asset primarily for the purpose of trading,
- ESPO expects to realise the asset within 12 months after the reporting period,
- The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle liabilities for at least 12 months after the reporting period.

All other assets are classified as long term.

(ii) Liabilities are classified as current where the following circumstances apply:

- ESPO expects to settle the liability in its normal operating cycle,
- ESPO holds the liability primarily for the purpose of trading,
- The liability is due for settlement within 12 months after the reporting period,
- ESPO does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

All other liabilities are classified as long term.

l. Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by ESPO as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the organisation.

ESPO has no internally generated intangible assets. Any future expenditure on such assets will be capitalised where it can be measured reliably as attributable to the asset and will be restricted to the development phase.

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the organisation's goods or services.

Intangible assets are initially measured at cost. Amounts are only revalued where the fair value of the assets held by ESPO can be determined by reference to an active market. In practice no intangible assets held by ESPO meet this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. As asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains or losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account.

m. Inventories

Inventories are included in the Balance Sheet at the lower of cost or net realisable value. The cost of inventories is assigned using the weighted average costing formula. ESPO inventories are held as Stores Stocks at Grove Park Enderby for resale to member authorities, other local authorities and customers.

n. Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where the lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Finance Leases
Property, plant and equipment held under finance leases is recognised in the Balance Sheet at the commencement of the lease at its fair value measured at the leases inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Any initial direct costs of this organisation are added to the carrying amount of the asset. Premiums paid on entry into the lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:
- A charge for the acquisition of the interest in the property, plant and equipment – applied to write down the lease liability, and
- A finance charge (debited to the Financing Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the assets estimated useful life (where ownership of the asset does not transfer to the organisation at the end of the lease).

A prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases
Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefiting from the use of the leased property, plant or equipment. Charges are made on a straight line basis over the life of the lease; even if this does not match the pattern of payments (eg there is a rent-free period at the commencement of the lease).

o. Property, Plant and Equipment

Assets that have a physical substance and are held for use in the supply of goods or services or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition
Expenditure on the purchase or enhancement of property, plant and equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to ESPO and the costs of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (ie repairs and maintenance) is charged as an expense when it is incurred. The minimum purchase value for recognition as a non-current asset is £5,000. Purchases of plant and equipment below this value are charged to revenue in the year of purchase.

Measurement
Assets are initially measured at cost, comprising:
- The purchase price
- Any costs attributable to bringing the asset to the location and condition for it to be capable of operating in the manner intended by management

ESPO does not capitalise borrowing costs incurred whilst assets are under construction. All ESPO Property, Plant and equipment has been purchased and were not subject to exchanges or donations.

Assets are carried in the Balance Sheet at fair value, determined as the amount that would be paid for the assets in its existing use. Where non property assets that have short useful lives or low values (or both), depreciated historical cost is used as a proxy for fair value.

The warehouse and offices premises at Grove Park are included at fair value and are revalued annually to ensure that the carrying amount is not materially different from their fair value at the year end. Various Chartered Surveyors in the Property Services Division of Leicestershire County Council's Resources Department carry out the valuation. The current property value used in the 2010/11 accounts is based on a certificate issued by the Council's Head of Property Services Division as at 31 March 2011. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains, except that gains may be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified they are accounted for by:
- Where there is a balance of revaluation gain for the asset in the revaluation reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount at the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The revaluation Reserve contains revaluation gains recognised since April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment
Assets are assessed at each year end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall

Where impairment is identified, they are accounted for by:
- Where there is a balance of revaluation gains for assets in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation
Depreciation is provided on all Property, Plant and Equipment by the systematic allocation of their depreciable amounts over their useful lives. An exception is made of assets without a determinable finite life (ie freehold land) and assets that are not yet available for use (ie assets under construction).

Depreciation is calculated on the following bases:
- Buildings – straight line allocation over the useful life of the property as estimated by the valuer
- Vehicles, plant and equipment – a percentage of the value of each class of assets in the balance sheet, as advised by a suitably qualified officer.

Where an asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.
Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on the assets and the depreciation that would have been chargeable based on their historical costs being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals and non-current assets held for sale
No assets were identified as available for sales assets at the date of the balance sheet or in the prior accounting year.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet is written off to the Other Operating Expenditure line in Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of the disposal).

p. Provisions, Contingent Liabilities and Contingent Assets

Provisions
Provisions are made where an event has taken place that gives the organisation a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. for instance, ESPO may be involved in a court case that could eventually result in the making of a settlement or a payment of compensation.

Provisions may be charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that ESPO becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated in made), the provision is reversed and credited back to the relevant service.

Contingent Liabilities
A contingent liability arises where an event has taken place that gives ESPO a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the organisation. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent Assets
A contingent asset arises where an event has taken place that gives ESPO a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the organisation.

q. Reserves

ESPO sets aside specific amounts as reserves for future policy purposes or to cover contingencies. The reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When Expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement.

Certain reserves are retained to manage the accounting processes for non-current assets, financial instruments, and employee benefits and do not represent resources for the organisation – these reserves are explained in the relevant policies.

r. VAT and Climate Change Levy (CCL)

VAT incorporated to the Comprehensive Income and Expenditure Account is limited to irrecoverable sums.

Income excludes any amounts related to CCL that, as a Deemed Utility, ESPO collects from its customers on behalf of HM Revenue and Customs and all CCL collected is payable to them.

2. Transition to IFRS

The statement of Accounts for 2010/11 is the first to be prepared on an IFRS basis. Adoption of an IFRS-based code has resulted in the restatement of various balances and transactions, with the result that some amounts presented in the financial statements are different from the equivalent figures presented in the Statement of Accounts for 2009/10.

The following tables explain the material differences between the amounts presented in the 2009/10 financial statements and the equivalent amounts presented in the 2010/11 financial statements.

Short-term accumulating compensated absences

Short-term accumulating compensated absences refers to benefits that employees receive as part of their contract of employment, entitlement to which is built up as they provide services to the authority. The most significant benefit covered by this heading is holiday pay.

Employees build up an entitlement to paid holidays as they work. Under the code, the cost of providing holidays and similar benefits is required to be recognised when employees render service that increases their entitlement to future compensated absences. As a result the organisation is required to accrue for any annual leave earned but not taken at 31 March each year. Under the previous accounting arrangements, no such accrual was required.

The government has issued regulations that mean local authorities are only required to fund holiday pay and similar benefits when they are used, rather than when employees earn the benefits. Amounts are transferred to the Accumulating Absences Account until the benefits are used.

Accruing for short-term accumulating compensated absences has resulted in the following charges being made to the 2009/10 financial statements:

a) *Opening Balances 1 April 2009 Balance Sheet:*

£000	2009/10 Statements	Adjustments made	Restated Balance Sheet at 1 April 2009
Creditors	(13,985)	(112)	(14,097)
Accumulating Absences Account (Included in Unusable Reserves)	0	(112)	(112)

b) *31 March 2010 Balance Sheet:*

	2009/10 Statements	Adjustments Made	Restated Balance Sheet at 31 March 2010
Creditors	(8,457)	(110)	(8,567)
Accumulating Absences Account (Included in Unusable Reserves)	0	(110)	(110)

c) 2009-10 Comprehensive Income and Expenditure Statement:

Cost of Services (Net):	2009/10 Statements	Adjustments Made	Restated 2009/10
Employees	9,671	(2)	9,669

Leases

Under the Code, leases are classified as finance leases where the organisation assumes the risks usually associated with ownership of the asset or where rental costs are effectively equivalent to the asset purchase price. The organisation has recognised that leases of motor vehicles and leases for office equipment should be treated in the financial statements as finance leases, subject to the same minimum purchase value as other non-current assets. Such leases were previously categorised as operating leases.

The Government has issued regulations and statutory guidance in relation to accounting for leases. Under these arrangements, the annual charge to the General Fund (where ESPO is the lessee) will be unchanged.

The organisation has various motor vehicles issued to staff under a Lease Car Scheme. The lease term is for 3 years. On termination of the lease the organisation bears the financial liability for any losses or gains resulting from the disposal of these vehicles. Office equipment is leased for periods of between 5 and 7 years and rentals effectively equal the purchase price.

As a consequence of classifying such lease as finance leases, the financial statements have been amended as follows:

- The organisation has recognised these assets and finance lease liabilities.
- The operating lease charges within Transport and Office Expenses have been reduced by the amount that relates to the capital element of the lease payments.
- A depreciation charge has been included within Equipment.
- The depreciation charge has been transferred from the General Fund to the Capital Adjustment Account. This transfer has been reflected in the Balance Sheets as at 1 April 2009 and 31 March 2010, and the adjustments that relate to 2009/10 are reported in the Movement in Reserves Statement for the year.
- The interest elements of the lease payments are charged to the Financing and Investment Income and Expenditure line in the Surplus or Deficit on the Provision of Services.

As a result the 2010/11 financial statement include the following changes to the 2009/10 audited Statement of Accounts.:

a) *Opening 1 April 2009 Balance Sheet:*

£000	2009/10 Statements	Adjustments Made	Restated Balance Sheet at 1 April 2009
Property, Plant and Equipment (leased assets)	10,535	262	10,797
Short-term Borrowings	(691)	(103)	(794)
Other Long-Term Liabilities (finance lease liabilities)	0	(124)	(124)
Capital Adjustment Account (included in Unusable Reserves)	(147)	35	(112)

b) *31 March 2010 Balance Sheet:*

£000	2009/10 Statements	Adjustments Made	Restated Balance Sheet at 31 March 2010
Property, Plant and Equipment (leased assets)	11,341	319	11,660
Short-term Borrowings	(684)	(73)	(757)
Other Long-Term Liabilities (finance lease liabilities)	0	(215)	(215)
Capital Adjustment Account (included in Unusable Reserves)	1211	31	1,242

c) *2009-10 Comprehensive Income and Expenditure Statement*

Cost of Services (Net):

£000	2009/10 Statements	Adjustments Made	Restated 2009/10
Other Customer and client Receipts (Net)	(7,748)	73	(7,675)
Transport	1,386	(141)	1,245
Equipment	1215	66	1,281
Office Expenses	326	(6)	320
Financing and Investment Income and Expenditure	473	12	485

Note: A further explanation of the movements on the Capital Adjustment Account and the Accumulated Absences Account are included within Note 19 Unusable Reserves.

The net change to the Cost of Services consists of the removal of the operating lease charges for the capital element of the lease (reduction of £135,000) and the inclusion of the depreciation charges (increase of £66,000).

The net effect on the Surplus or Deficit on the Provision of Services is removed by the transfer of the depreciation charge to the Capital Adjustment Account. This transfer is shown in the Movement in Reserves Statement

3. Accounting Standards that have been issued but have not yet been adopted

The Code of Practice in Local Authority Accounting in the United Kingdom 2011/12 (the code) has introduced a change in accounting policy in relation to the treatment of heritage assets. ESPO holds no such assets.

4. Critical Judgements in Applying Accounting Policies

In applying the accounting policies set out in Note 1, the organisation has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- The potential outcome of a legal claim against the organisation for a breach of contract. An earmarked reserve has been established in 2010/11 to provide for the potential legal costs of defending this claim.
- ESPO's premises at Grove Park, Enderby has been subject to a revaluation as at 31 March 2011 by the Property Department of Leicestershire County Council (the organisation's servicing authority). The resulting reduction in the fair value of £511,000) is reflected in the financial statements.
- The Staff Bonus Scheme is under review regarding its appropriateness to a local authority organisation. The scheme is applicable to all staff and is dependent on the achievement of independently determined annual performance targets. An earmarked reserve for pay harmonisation has been established in 2010-11 to provide for the potential cost of buying out the scheme.

5. Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by ESPO about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimate

The items in the organisation's Balance Sheet at 31 March 2011 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainty	Effect if Actual Results Differ from Assumptions
Property, Plant and Equipment	Assets are depreciated over useful lives that are dependent upon assumptions of business requirements and upkeep expenditure on individual assets. The Strategic Review of ESPO by Deloitte and ESPO's reliance its ability to sustain spending on asset repair and maintenance, bringing into doubt the useful lives assigned to assets, in particular with regards to the Grove Park premises.	If the useful live of assets reduces depreciation increases and the carrying amount of the asset falls. It is estimated that the annual depreciation charge for the premises would increase by £1,200 for every year that useful lives had to be reduced.
Debtors	At 31 March 2011, ESPO had a balance of sundry sales ledger debtors of £6.1 million. A review of overdue debts has identified that an impairment for doubtful debts of £86,900 was appropriate in relation to amounts due from commercial organisations. However, it is not certain that such an allowance will be sufficient.	If an additional 1% of customers become insolvent, the amount of the impairment for doubtful debts would require an additional £61,000 to be set aside as an allowance.
Stocks	Stocks of catalogue products are held in anticipation of sales to customers. The catalogue is re-issued annually and products may be added or deleted. Stocks held at 31 March 2011 in excess of one year sales may not be included in subsequent catalogues. The write down in value of stocks held in excess on one year amounted to £151,000. This value is based on an estimate of sales over the next 12 month period. However, it is not certain that sales forecasts are accurate; that the products will not be included in the next catalogue and that the write down is sufficient or excessive.	If 10% of the products for which excess stocks have been identified are included in the catalogue for 2012/13, the resulting reduction in stock write down would be £15,000. If sales volumes in 2011/12 change by 10% for products where ESPO holds stocks in excess of one years sales, the value of the write down would need to change by £20,000.

6. Events after the Balance Sheet Date

The Statement of Accounts was authorised for issue by the Consortium Treasurer on 29 September 2011. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2011, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

7. Adjustments between the Accounting Basis and Funding Basis under Regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the ESPO in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the authority to meet future capital and revenue expenditure.

2010/11	Usable Reserves

At 31 March 2010	**10,100**	**1,560**	**11,660**

Depreciation:

The following useful lives and depreciation rates have been used in the calculation of depreciation:

1. Land and Buildings – 70 years
2. Vehicles, Plant and Equipment – 4 to 10 years

Capital Commitments:

At 31 March 2011, ESPO has entered into a number of contracts for the purchase of six commercial vehicles during 2011/12 valued at £237,000. Similar commitments at 31 March 2010 were seven commercial vehicles valued at £243,000. There are no contractual commitments in 2011/12 for the acquisition of intangible assets.

Revaluations:

ESPO undertakes an annual revaluation programme to ensure that the value of the premises at Grove Park, Enderby is correctly measured at fair value. The valuation was carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institute of Chartered Surveyors.

	Land and Buildings	Vehicles, Plant and Equipment	Total Property,Plant and Equipment
	£000	£000	£000
Carried at historical cost	0	3,359	3,359
Valued at fair value at 31 March 2011	9,500		9,500
Total Cost or Valuation	**9,500**	**3,359**	**12,859**

12. Intangible Assets

ESPO accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment. The intangible assets only include purchased licences.

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the organisation. The useful life assigned to all major software used by ESPO is 5 years.

The carrying amount of intangible assets is amortised on a straight line basis. The amortisation of £36,000 charged to revenue in 2010/11 was charged as a service overhead cost under the heading "Equipment" in the Comprehensive Income and Expenditure Statement.

The movement on Intangible Asset balances during the year is as follows:

	31/03/2011 Purchased Software £000	31/03/2010 Purchased Software £000
Balance at start of year:		
• Gross carrying amount	248	175
• Accumulated amortisation	(166)	(147)
Net carrying amount at start of year	82	28
Additions – Purchases.	77	73
Amortisation for the period	(36)	(19)
Net carrying amount at end of year	123	82
Comprising:		
• Gross carrying amount	325	248
• Accumulated amortisation	(202)	(166)
	123	82

13. Financial Instruments

The following categories of financial instruments are carried in the Balance Sheet:

	Long-Term			Current		
	31 March 2011	31 March 2010	31 March 2009	31 March 2011	31 March 2010	31 March 2009
	£000	£000	£000	£000	£000	£000
Loans and Receivables: Financial assets carried at contract amounts including Cash and Cash Equivalents				12,203	9,523	15,781
Total Debtors				12,203	9,523	15,781
Borrowings: Financial Liabilities at amortised cost	9,500	10,000	10,500	761	757	794
Total Borrowings	9,500	10,000	10,500	761	757	794
Other Long Term Liabilities: Finance Lease liabilities	200	215	124			
Total other long term liabilities	200	215	124			
Other Short Term financial Liabilities: Financial liabilities carried at contract amounts				9,937	9,517	15,465
Total Short term Liabilities				9,937	9,517	15,465

Income, Expense, Gains and Losses:

The gains and losses recognised in the Consolidated Income and Expenditure Account in relation to financial instruments are made up as follows:

	2010/11		2009/10	
	Financial Liabilities	Financial Assets	Financial Liabilities	Financial Assets
	Measured at amortised cost	Loans and Receivables	Measured at amortised cost	Loans and Receivables
	£000	£000	£000	£000
Interest expense payable on long term loan	(451)		(475)	
Bank interest payable on leased assets loans	(15)		(12)	
Bank and short term investment interest receivable		5		2
Net gain/(loss) for the year	(466)	5	(487)	2

Fair Values of assets and Liabilities

Financial liabilities and financial assets represented by loans and receivables and long term creditors are carried in the Balance Sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the following assumptions:

- Estimated interest rate at 31 March 2011 of 4.71% for loans from Leicestershire County Council based on equivalent rates for loans from the PWLB and a rate of 7.6% for equipment loans based on equivalent commercial rates.
- No early repayment or impairment is recognised.
- Where an instrument will mature in the next 12 months, carrying amount is assumed to approximate to fair value.
- The fair value of trade and other receivables is taken to be the invoiced or billed amount.

The fair values calculated are as follows:

	31 March 2011		31 March 2010	
	Carry Amount	Fair Value	Carry Amount	Fair Value
	£000	£000	£000	£000
Financial Liabilities – Premises loan from Leicestershire County Council	10,175	10,056	10,684	10,654
Other Long-term creditors	223	223	251	251

Where the fair value is less than the carrying amount, this arises because the organisation's borrowings include a number of fixed rate loans where the interest payable is lower than the rates available for similar loans at the balance sheet date.

Loans and Receivables:

The fair value of trade and other receivables is taken to be the invoiced or billed amount which is the same as the carrying amount on the Balance Sheet.

14. Inventories

ESPO holds Stores stocks of products for resale to customers. The value of these stocks is as follows:

	2010/11	2009/10
	£000	£000
Balance outstanding at start of year	4,488	4,122
Purchases	27,929	26,739
Recognised as an expense in the year	(27,746)	(26,361)
Written off balances	(236)	(12)
Balance outstanding at year end	4,435	4,488

15. Short-Term Debtors

The following represents an analysis of the amounts due to ESPO:

1 April 2009	31 March 2010		31 March 2011
£000	£000		£000
		Current Debtors	
659	636	Reserved Debtors	917
8,888	7,213	Sundry Debtors	6,388
0	166	Tax Debtor	0
(186)	(294)	Less provision for bad debts	(86)
9,361	7,721	**Total**	7,219
		Analysis of Bad debts Provision	
(150)	(186)	Opening Balance as at 1 April	(294)
(55)	(153)	I & E Charge for the Year	(36)
19	45	Less Bad Debts Written off	244
(186)	(294)	Closing Balance as at 31 March	(86)

16. Cash and Cash Equivalents

1 April 2009	31 March 2010		31 March 2011
£000	£000		£000
1	1	Cash held by ESPO	1

1,123	790	Member authority dividends	1,764
272	282	Payroll deductions	275
15,911	9,969	**Total**	10,349

18. Usable Reserves

Movements in ESPO's usable reserves are detailed in the Movement in Reserves Statement and in Notes 7 and 8 above.

ESPO reserves have been established to meet operating deficits and to finance major one-off expenditure and replacement of assets. The Usable Reserves held by ESPO at 31 March 2011 are as follows:

(i) General Fund:

The reserve provides working capital to finance ESPO's trading activities. Standard practice is that, on acceptance of the annual accounts by member authorities, the annual surplus is allocated to this account after making deductions of any amounts transferred to Earmarked, Vehicle/Equipment and Stores Maintenance Reserves and of amounts payable to member authorities as annual dividend. Member authorities' dividend is normally calculated as 80% of the annual surplus after transfers to other reserves. The retained balance is not available for distribution to member authorities and is held to offset any unbudgeted deficits. The maximum value determined by Members was set at 2.5% of turnover.

(ii) Earmarked Projects:

Amounts authorised by member authorities to be allocated from annual surpluses to provide for the funding of major capital expenditure and development projects.

(iii) Vehicles/Equipment:

This reserve provides funding for the replacement purchases of vehicles and other capital equipment and equalises the effect of annual spending variations on annual surpluses by means of an annual charge to revenue calculated on the expected asset life and replacement cost.

(iv) Stores Maintenance:

This reserve provides funding for major building repairs, for which ESPO as beneficial owner is responsible and equalises the effect of annual spending variations on annual surpluses by means of an annual charge to revenue.

(v) Staff Pay Harmonisation:

This reserve provides funding for the expected costs associated with closure of the staff annual bonus scheme.

(vi) Legal Claim:

This reserve provides funding for the organisation's anticipated legal costs in defending a claim in respect of the termination of a design and marketing agreement.

(vii) Strategic Review Implementation:

This reserve provides funding for the implementation of recommendations following a strategic review of the organisation undertaken by Deloitte and agreed by ESPO Management Committee.

19. Unusable Reserves

1 April 2009 (Restated)	31 March 2010 (Restated)		31 March 2011
£000	£000		£000
0	2	Revaluation Reserve	0
(112)	1,242	Capital Adjustment Account	990
(112)	(110)	Accumulated Absences Account	(99)
(224)	1,134	**Total**	891

Revaluation Reserve

The Revaluation Reserve contains the gains made by ESPO arising from increases in the value of its property. The balance is reduced when assets with accumulated gains are:

- Revalued downwards or impaired and the gains are lost
- Used in the provision of services and the gains are consumed through depreciation, or
- The asset is disposed of and the gains realised.

The Reserve contains only gains accumulated since 1 April 2007, the date the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

	2010/11	2009/10
	£000	£000
Balance at 1 April	2	0
Difference between the fair value depreciation and historical cost depreciation:	0	2
Impairment losses on Property, Plant and Equipment	(2)	0
Balance at 31 March	0	2

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provision. The account is debited with the cost of acquisitions, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The accrual is credited with the amounts set aside by the organisation as finance for the costs of acquisition, construction and enhancement.

The Account contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 7 provides details of the source of all the transactions posted to the account, apart from those involving the Revaluation Reserve.

2009/10 (Restated)	**Capital Adjustment Account**	2010/11	
£000		£000	
(112)	Balance at 1 April		1,242
	Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:		
(515)	• Charges for depreciation and impairment of non current assets	(595)	
680	• Net Revaluation gains and (Impairment losses) on Property, Plant and Equipment	(509)	
(19)	• Amortisation of intangible assets	(36)	
	• Revenue expenditure funded from capital under statute		
(73)	• Amounts of non current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(68)	
(39)			(1,208)
	Net written out of the cost of non-current assets consumed in the year		
	Capital financing applied in the year:		
37	• Use of Major Project Earmarked Reserve to finance new capital expenditure	84	
530	• Use of the Repairs and Renewals Earmarked Reserve to finance new capital expenditure	219	
635	• Statutory provision for the financing of capital investment charged against the General Fund	598	
79	• Capital Expenditure charged against the General Fund	55	
			956
1,242	**Balance at 31 March**		990

Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year e.g. annual leave entitlement carried forward at 31 March.

Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

2009/10 (Restated) £000		2010/11 £000	
(112)	**Balance at 1 April**		(110)
112	Settlement or cancellation of accrual made at the end of the preceding year	110	
(110)	Amounts accrued at the end of the current year	(99)	
2	Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements		11
(110)	**Balance at 31 March**		(99)

20. Reconciliation of the Surplus on the Comprehensive Income and Expenditure Statement to Revenue Activities Cash flow

2009-10		2010-11	
	Non cash Transactions:		
(534)	Depreciation of non-current assets	(632)	
2	Movement on short-term accumulating compensated absences adjustments	11	
(532)			(621)
	Revenue items on an accruals basis:		
366	Increase/(decrease) in stocks	(53)	
(1,640)	Increase/(decrease) in debtors	(502)	
5,333	Decrease/(increase) in creditors	432	
(7)	Decrease/(increase) in tax creditor	40	
(706)	Decrease/(increase) in other current liabilities	(958)	
3,346			(1,041)
2,814	**Total adjustment to net surplus on the provision of services for non-cash movements**		(1,662)
	Adjustments for items included in the net surplus on the provision of services that are Investing and financing activities		
(485)	Interest payable (net)	(461)	
15	Surplus on disposal of non-current assets	5	
(470)			(456)

21. Cash Flow Statement – Adjustments to Operating Activities

The cash flows for operating activities include the following items:

2009/10		2010/11
£000		£000
(3)	Interest Received	(5)
487	Interest paid	466
1123	Dividends paid	0
1,607	**Net cash flows from operating activities**	461

Note: The dividend declared for 2008/9 of £1.123 million was paid to member authorities in 2009/10. The dividends for 2009/10 and 2010/11 have been declared but no payments have yet been made to member authorities.

22. Cash Flow Statement – Investing Activities

2009/10 (Restated)		2010/11
£000		£000
842	Purchase of Property, Plant and Equipment and intangible assets	455
(87)	Proceeds from the sale of property, plant and equipment and intangible assets.	(74)
755	**Net cash flows from investing activities**	381

23. Cash Flow Statement – Financing Activities

2009/10 (Restated)		2010/11
£000		£000
135	Cash payments for the reduction of outstanding finance lease liabilities	98
508	Repayment of short and long-term borrowing	509
643	**Net cash flows from financing activities**	607

24. Amounts Reported for Resource Allocation Decisions

The analysis of the income and expenditure on the face of the Comprehensive Income and Expenditure Statement is that specified by the Best Value Accounting Code of Practice. However, decisions about resource allocation in 2010/11 were taken by ESPO's Senior Management Team on the basis of financial reports analysed across its two main operating divisions. These reports are prepared on a different basis from the accounting policies used in the financial statements. In particular:

- Charges are made in the Management Trading Accounts for the replacement of non-current plant and equipment and intangible assets based on the expected cost of replacement. A Renewals Reserve holds the accumulated charges and purchases of replacements are charged to this reserve.

- No charges are made in relation to depreciation of the Grove Park premises, or for revaluation gains or impairment losses (whereas depreciation on all non current and intangible assets, revaluation and impairment losses in excess of the balance on the Revaluation Reserve and amortisations are charged in the Comprehensive Income and Expenditure Statement).

- Repayments of the capital and interest elements of the premises loan and of finance leases are treated as a rental charges in the Management Trading Accounts (whereas the interest elements are included as Financing and Investment Expenditure in the Comprehensive Income and Expenditure Statement and the capital elements are included in the Movement in Reserve statement and identified in Note 7).

- Charges are made in the Management Trading Accounts for purchases of additional non current and intangible assets for which there are no amounts provided within Renewals or Earmarked Reserves (whereas these purchases are excluded from the Comprehensive Income and Expenditure Statement and are included in the Movement in Reserve statement and identified in Note 7).

- No charges are made in the Management Trading Accounts for revenue expenditure on major development projects where an earmarked reserve has been established and approved by the Management Committee (whereas such expenditure is included within the Comprehensive Income and Expenditure Statement and reversed out in the Movement in Reserve statement and identified in Note 8).

- No charges are made in the Management Trading Accounts for dividend payments to member authorities

The income and expenditure of the organisation's principal trading divisions recorded in the Management Trading Accounts for the year is as follows:

Management Trading Account:

2009/10				2010/11		
Stores	Central Purchasing	Total		Stores	Central Purchasing	Total
£000	£000	£000		£000	£000	£000

0	(47)	(47)	Non current assets purchases included under Equipment	(20)	0	(20)
			Plus expenditure not included in Management Accounts. Included in the Comprehensive Income and Expenditure Statement:			
411	123	534	Depreciation of non current assets and amortisation of intangible assets included under Equipment	486	145	631
7	(9)	(2)	Compensated absences included under Employees	13	(24)	(11)
10	0	10	Earmarked Reserves revenue expenditure included under equipment	40	0	40
34,847	52,233	87,080	**Gross Income as per the Comprehensive Income and Expenditure statement**	36,322	46,204	82,526
(2,009)	**18**	**(1,991)**	**(Surplus)/Deficit on Net Cost of Services as per ESPO Statement of Accounts**	**(2,373)**	**(1,569)**	**(3,942)**

There is no segmental reporting of the organisation's assets and liabilities as these are not segregated for management reporting.

25.Officers Remuneration

a) Apart from the senior officers who are listed in note b) below, there were no officers in either 2009/10 or in 2010/11 whose emoluments met or exceeded £50,000. Therefore this table has been omitted.

b) The following table sets out the remuneration disclosures for senior officers whose salary is less than £150,000 but equal or more than £50,000 per year:

Postholder Information (Post Title)	Salary (inc fees & allowances)	Bonuses	Benefits in Kind (e.g. Car Allowances)	Total Remuneration excluding pension contributions	Pension contributions	Total Remuneration including pension contributions
2010/11	£	£	£	£	£	£
Director	73,776	0	2,426	76,202	13,288	89,490
Deputy Director	78,356	3,066	3,019	84,441	17,314	101,755
Assistant Director (Commodity)	68,625	2,059	2,710	73,394	13,741	87,135
Assistant Director (Finance)	68,625	2,059	2,436	73,120	13,741	86,861
Assistant Director (Operations)	62,907	1,887	2,372	67,166	13,087	80,253
	352,289	9,071	12,963	374,323	71,171	445,494

NOTE: In 2010/11 the ESPO Director retired on the 30 September 2010 and therefore the above salary reflects six months of remuneration. The Deputy Director changed from full-time to part-time from 1 September 2010 and therefore the above remuneration reflects this.

2009/10 Comparatives						
Director	127,805	7,586	5,085	140,476	28,112	168,588
Deputy Director	97,704	4,262	2,814	104,780	19,822	124,602
Assistant Director (Commodity)	65,790	3,737	2,907	72,434	13,498	85,932
Assistant Director (Finance)	65,813	3,737	1,656	71,206	13,498	84,704
Assistant Director (Operations)	62,907	3,737	2,047	68,691	13,447	82,138
	420,019	23,059	14,509	457,587	88,377	545,964

26. External Audit Costs

Eastern Shires Purchasing Organisation incurred the following audit fees:

	2010/11	2009/10
	£000	£000
Fees payable to external auditors with regard to external audit services and statutory inspection carried out by the appointed auditor under the Audit Commission's Code of Audit Practice in accordance with section 5 of the Audit Commission Act 1998.	26.4	25.0
The audit fees in 2010/11 include £2,000 relating to additional work undertaken in 2009/10 charged after the 2009/10 Statement of Accounts was issued.		

27. Related Parties

ESPO is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the organisation or to be controlled or influenced by ESPO. Disclosure of these transactions allows readers to assess the extent to which ESPO might be constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with ESPO.

Members

Members of the Management Committee have a direct control over ESPO financial and operating policies. No payments are made by ESPO to any members of the Management Committee. During 2010/11 no members had an interest in any work or services commissioned by ESPO. Contracts were entered into in full compliance with the organisation's standing orders.

Officers

During 2010/11 no officers declared a pecuniary interest in any contractual or financial transactions.

Other Public bodies [subject to common control by central government]

Debtors:

ESPO provides goods and services to all member authorities and as a consequence amounts due from member authorities including LEA schools for such transactions amounted to £2.777 million as at 31 March 2011 (£3.497 million as at 31 March 2010) and are included in 'Sundry Debtors' as detailed in note 15 to the Statement of Accounts. The amounts owing from each member authority are as follows:

Analysis of Sundry Debtor Balances	31 March 2011	31 March 2010	31 March 2009
	£000	£000	£000
Member Authorities:			
Cambridgeshire County Council	285	380	744
Leicester City Council	375	404	627
Leicestershire County Council	590	691	1,173
Lincolnshire County Council	469	636	1,013
Norfolk County Council	555	843	1,028
Peterborough City Council	173	168	242
Warwickshire County Council	330	375	471
Total	2,777	3,497	5,298

Sales:

The value of sales to member authorities, including LEA schools, for services provided by ESPO are included within the value of Gross Income in the Consolidated Income and Expenditure Statement and amounted to £42.23 million for 2010/11 (£45.48 million for 2009/10). The following is a breakdown by individual member authority:

Analysis of sales to member authorities.	2010/11	2009/10
	£000	£000
Member Authorities:		
Cambridgeshire County Council	5,816	6,188
Leicester City Council	6,154	6,666
Leicestershire County Council	7,231	8,061
Lincolnshire County Council	5,755	6,418

Peterborough City Council	0	6
Warwickshire County Council	4	12
	1,192	1,248

28. Capital Expenditure and Capital Financing

ESPO finances the purchase of routine replacement non current and intangible assets from the Vehicles and Equipment Renewals Reserve or the Stores Maintenance Reserve.

Purchases of additional non current and intangible assets may be financed from Earmarked Reserves when these form part of development projects approved by the Management Committee. Other purchases of additional non current and intangible assets are financed from revenue

Financing of capital expenditure on non current and intangible assets:

2009/10 (Restated)			2010/11	
Intangibles	Vehicles & Equipment		Intangibles	Vehicles & Equipment
£000	£000		£000	£000
37	239	Financed from Revenue		152
36		Financed from Earmarked Reserves	77	7
	530	Financed from Vehicle & Equipment Reserves		219
73	769		77	378

Capital expenditure commitments:

	31 March 2011	31 March 2010
	£000	£000
The organisation entered in commitments during 2010/11 for the purchase of non current assets in the following financial year, 2011/12. Payments on these contracts remain outstanding at 31 March 2011 at which date ESPO was committed to purchase six commercial vehicles in 2011/12, (2009/10 commitment was seven commercial vehicles to be purchased in 2010-11).	237	243

29. Leases

Finance Leases

The organisation has acquired its motor car fleet and selected office copiers under finance leases. Copiers below the minimum capital purchase value of £5,000 continue to the treated as operating leases.

The assets acquired under these finance leases are carried as Property, Plant and Equipment in the Balance Sheet at the following amounts:

31 March 2010 (Restated)		31 March 2011
£000		£000
319	Vehicles, Plant and Equipment	281

The organisation is committed to making payments under these finance leases comprising of the long-term liability for the interest in the property acquired by ESPO and finance costs that will be payable by ESPO in future years while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

	31 March 2011	31 March 2010 (Restated)	31 March 2009 (Restated)
	£000	£000	£000
Finance lease liabilities (net present value of minimum lease payments):			
• Current			
• Non current	286	288	227
Finance costs payable in future years	31	36	26
Minimum lease payments	317	324	253

The minimum lease payments will be payable over the following periods:

	Minimum Lease Payments			Finance Lease Liabilities		
	31 March 2011	31 March 2010 (Restated)	31 March 2009 (Restated)	31March 2009	31 March 2010 (Restated)	31 March 2011 (Restated)
	£000	£000	£000	£000	£000	£000
Not later than one year	102	89	115	86	73	103
Later than one year and not later than five years	215	235	138	200	215	124
	317	324	253	286	288	227

Operating Leases

ESPO has acquired office copiers and food vendors by entering into operating leases, with a typical life of 5 years.

The future minimum lease payments due under non-cancellable leases in future years are:

	2010/11	2009/10
	£000	£000
Not later than one year	7	11
Later than one year and not later than 5 years	9	16
Minimum lease payments	16	27

The expenditure charged to the Equipments line in the Comprehensive Income and Expenditure Statement during the year in relation to these operating leases was:

	2010/11	2009/10
	£000	£000
Minimum lease payments	11	10

30. Impairment Losses

During this financial year ESPO has recognised an impairment loss of £511,000 in relation to its premises at Grove Park, Enderby. The premises have been valued on a fair value basis at £9.5 million by the Property Services Department of Leicestershire County Council at 31 March 2011. A similar valuation was carried out at 31 March 2010 resulting in an upwards revaluation to £10.1 million and a revaluation gain of £682,000. The impairment loss for 2010/11 and the prior year gain are included within the Consolidated Income and Expenditure Statement. There has been no change of use during this period and the organisation continues to utilise the premises as its operational head quarters, warehouse and distribution centre.

31. Pensions

The staff of ESPO are employed by Leicestershire County Council, on a rechargeable basis, although ESPO determines the staffing levels. Employees are eligible for membership of the Local Government Pension Scheme administered by Leicestershire County Council. A separate fund value is not identified for ESPO employees and therefore sufficient information is not available for this organisation to account for the plan as a defined benefit scheme.

Details of the Leicestershire County Council defined benefits pension fund are contained within the authority's annual Statement of Accounts which are available on line from www.leics.gov.uk. The latest fund actuarial valuation at 31 March 2010 identified that the funds assets were sufficient to meet approximately 80% of the liabilities accrued up to that date. An increase in common contribution rates from 16% to 20% of pensionable pay resulted from the actuarial valuation and will apply from 1 April 2011.

The pension costs that are charged to ESPO's accounts in respect of these employees are equal to the contributions paid to the funded pension scheme. In addition ESPO has made arrangements for the payment of added-years pensions to certain retired employees outside the provisions of the scheme, on an unfunded basis.

In 2010/11 ESPO paid an employer's contribution of £1,031,169, (2009/10 - £1,035,880), into the Pension Fund, representing an average 16.5% of total pensionable pay. The rate of contribution was based upon the actuarial review as at March 2007 and resulted in a requirement for the common contribution rate of employer's contributions to increase from 250% in 2008-09 to 270% of employees' contributions in 2010/11.

In addition, ESPO is responsible for all pension payments relating to added-years benefits it has awarded, together with the related increases. In 2010/11 these amounted to £33,375, (2009/10 - £10,066), representing 0.5% of pensionable pay.

32. Contingent Liabilities

A claim was received in 2009/10 in respect of the termination of a design and marketing agreement. The validity of the claim was disputed and no Provision was created in the 2009/10 accounts. The claimant subsequently filed a claim with the High Court in London in April 2011. The organisation continues to dispute the claim and has established a reserve of £500,000 in 2010/11 to cover for potential defence legal costs. This is included as an earmarked usable reserve in the Movement in Reserves Statement at 31 March 2011. Further details of the claim have not been disclosed as this may prejudice the legal position.

33. Nature and Extent of Risks Arising from Financial Instruments

The organisation's activities expose it to a variety of financial risks:

- Credit risk – the possibility that other parties might fail to pay amount due to ESPO.
- Liquidity risk – the possibility that ESPO might not have funds available to meet its commitments to make payments
- Market risk – the possibility that financial losses might arise from changes in such measures as interest rates

The organisation only generates income through its commercial activities therefore risk management focuses on the unpredictability of customer demand and on maintaining its reputation for service quality and value for money. The effective risk management of financial instruments is vital to ensure the necessary funding and resources are available to support these activities. Risk management is carried out by the Senior Management Team under policies approved by the ESPO Management Committee and in compliance with the financial regulations and policies of Leicestershire County Council, the organisation's servicing authority.

Credit Risk

Credit risks arise from deposits with banks and from credit exposures to the organisation's customers. Deposits are made with banks that are approved by the servicing authority and that meet Leicestershire County Council rating requirements.

The maximum exposure to credit risk in relation to ESPO's investments in banks and building societies is 100% of its investments, but this cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principle sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of ESPO's deposits but there was no evidence at 31 March 2011 that this was likely to crystallise.

Customers are assessed, taking into account their legal status, past experience and other factors with individual credit limits being set for catalogue customers in accordance with internal ratings. Due to the nature of the transactions, limits are not enforced on energy billing and on turnover rebates due from contracted suppliers. As at the Balance Sheet date no customers' credit terms have been renegotiated that would otherwise be past due.

The following analysis summarises the organisation's potential maximum exposure to credit risk, based on default and un-collectability over the past 6 years, adjusted to reflect current market conditions.

	Amount at 31 March 2011	Historical experience of default	Historical experience adjusted for market conditions at 31 March 2011	Estimated maximum exposure to default and un-collectability 31 March 2011	Estimated maximum exposure at 31 March 2010
	£000	%	%	£000	£000
Bank Deposits	367	0	0	0	0
Investments (see Note 15)	4,617	0	0	0	0
Customers	6,388	0.88%	2.13%	136.2	36.4
				136.2	36.4

Where applicable, no credit limits were exceeded during the reporting period and ESPO does not expect any losses from non-performance in relation to bank deposits. ESPO normally allows credit terms of between 14 and 45 days for customers. A total of £1.22m of the balance of £6.39m was overdue at 31 March 2011 and can be analysed as follows:

Aged Analysis of financial assets that are past due as at the reporting date but not impaired (Overdue debtors):

	31 March 2011	31March 2010
	£000	£000
Less than one month overdue	780	834
Between one and three months	225	201
More than three months overdue	214	292
	1,219	1,327

Impairment of financial assets:

A bad debt provision is established following a review of individual customers' debts as at the balance sheet date and a proportionate value of impairment is determined according to the individual circumstances including customers' legal status. Debts are usually considered 100% impaired when customers have entered into liquidation. A summary of the provision is included within Note 15 – Short Term Debtors.

Liquidity Risk

In order to support seasonal trade variations ESPO has an informal treasury arrangement with Leicestershire County Council (its servicing authority) that provides ready access to liquid funds for short-term borrowing at market interest rates.

ESPO moved to new premises at Grove Park, Enderby, Leicestershire in February 2006. This property is owned by Leicestershire County Council on behalf of the organisation as a consequence of ESPO's status which does not permit the legal ownership of assets.

Leicestershire County Council financed the purchase with long term borrowing from the Public Works Loan Board which ESPO, as the beneficial owner of the property, has committed to recompense to the council in instalments that equal their repayments to the PWLB for the duration of the loan. The loan is subject to interest rates charged between 4.4% to 4.65% pa.

Maturity analysis of financial liabilities:

	Total Long-Term Outstanding at 31 March 2011 £000	Total Long-Term Outstanding at 31 March 2010 £000
Lender:		
• Leicestershire County Council	9,500	10,000
Analysis of Maturity of this loan:		
• Between one and two years	500	500
• Between two and five years	1,500	1,500
• Between five and ten years	2,500	2,500
• In ten years or more	5,000	5,500

Market Risks:

Interest Rate Risk:
ESPO is exposed to interest rate risk in terms of its exposure to rate movements on its investments and short-term borrowings. The impact on the Income and Expenditure Account of rate changes on interest receivable and interest payable on such transactions is nominal in relation to ESPO turnover. For example, the effect of a 1% increase in rates would be an increase in income on investments of £21,000 and an increase in expenditure on borrowings of £1,000. The effect of a 1% decrease would have the opposite effect.

The effect of interest rate exposure is recognised within the annual budget and regularly monitored by management.

Price Risk:
The organisation does not invest in equity shares and therefore has no exposure to gains or losses arising from movements in share prices.

Foreign Exchange Risk:
The organisation has no assets or liabilities denominated in foreign currencies as imports and exports are priced in sterling. Movements in exchange rates may impact on the sterling prices quoted by overseas suppliers although the extent of this influence is not calculable.

ANNUAL GOVERNANCE STATEMENT 2010/11

Scope of responsibility

Eastern Shires Purchasing Organisation (ESPO) is responsible for ensuring that its business is conducted in accordance with the law and proper standards and that public money is safeguarded and properly accounted for and used economically, efficiently and effectively. ESPO also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, ESPO is responsible for putting in place proper arrangements for the governance of its affairs and for facilitating the effective exercise of its functions which includes arrangements for the management of risk.

ESPO Management Committee approved and adopted a Consortium Agreement in April 1999 and a Consortium Code of Practice in April 2000. These contain the organisation's code of corporate governance and are consistent with the principles of the CIPFA/ SOLACE Framework Delivering Good Governance in Local Government. A copy of the Consortium Agreement and Code of Practice can be obtained from the Director at ESPO's offices in Enderby.

This statement explains how ESPO has complied with the code and also meets the requirements of regulation 4(3) of the Accounts and Audit (England) Regulations 2011 in relation to the publication of an annual governance statement that accompanies the annual statement of accounts.

The purpose of the governance framework

The governance framework comprises the systems, processes, culture and values by which the authority is directed and controlled and its activities through which it accounts to, engages with and leads the community. It enables the authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate cost effective services.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of ESPO's policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically. The governance framework has been in place at ESPO for the year ended 31 March 2011 and up to the date of approval of the annual report and statement of accounts.

The key elements of the systems and processes that comprise the organisation's governance arrangements are:

Governance framework

- ESPO is a local authority joint committee established by five county councils and two unitary authorities to operate as a consortium for the purchase of goods and services for their mutual benefit. The organisation has adopted a Consortium Agreement and Code of Practice which set out how the consortium operates, its purpose and objectives, how decisions are made and the procedures that are followed to ensure these are efficient, and accountable to member authorities.

- Policy and decision making is facilitated through the establishment of a Management Committee consisting of up to three elected councillors from each of the seven member authorities. Meetings are open to the public except where personal or confidential matters are being disclosed. The position of Committee Chairman is elected annually from committee members and rotates to a councillor from each member authority. The role of Consortium Secretary is undertaken by the Chief Executive of Leicestershire County Council, the organisation's servicing authority.

- The responsibility for the training, development and remuneration of elected councillors to the ESPO Management Committee rests with the individual authority that each councillor represents. ESPO makes no payments to members of the Management Committee. In order to assist committee members to understand ESPO, its policies, objectives and the services provided to member authorities, the organisation offers induction training for new members.

- The Management Committee has approved a scheme of delegated authority to the Director of ESPO for the operational management of the organisation. The Director is supported by a Deputy Director and by three Assistant Directors who represent the organisation's main functional divisions of Procurement, Operations and Finance and who together constitute the organisation's Senior Management Team (SMT). The SMT are responsible for the routine operational management of the organisation, for implementing the plans policies and projects approved by the Management Committee and for compliance with relevant legislation.

- Through reviews by external auditors, external agencies and internal auditors from Leicestershire County Council, ESPO constantly seeks ways of ensuring the economical, effective and efficient use of resources, and for securing continuous improvement in the provisions of its services having regard to a combination of competitive pricing, operational efficiency and service effectiveness as required to meet the needs of member authorities and other customers within the consortium area.

- The quality of its services is measured through annual independent customer satisfaction surveys, annual price benchmarking against competitor organisations, service user advisory panels, and performance KPIs. Use of the consortium's services is voluntary, it receives no grants or funding and it competes with commercial providers therefore the ultimate measure of customers' satisfaction is reflected in the use of its services as measured by turnover values.

- Services are delivered by trained, experienced and when required qualified people. Training for relevant professional qualifications is encouraged and financial assistance is provided. All new employees receive induction training which is tailored to the needs of their post. All posts have a detailed job description and for legal purposes all ESPO staff are employed by Leicestershire County Council on a rechargeable basis. ESPO adopts the employment policies, including policies relating to whistleblowing, fraud, dignity at work, bribery and grievance together with the code of conduct and conditions of service of Leicestershire County Council. These may be adapted to reflect local conditions of service necessitated by the commercial nature of the organisation.

- The Monitoring Officer is the County Solicitor of our servicing authority, Leicestershire County Council. It is the function of the Monitoring Officer to ensure compliance with established policies, procedures, laws and regulations.

- The Chief Financial Officer is the Director of Corporate Resources of Leicestershire County Council who is ultimately responsible for ensuring that the administration of the organisation's financial management arrangements conforms to the governance requirements of the CIPFA Statement on The Role of the Chief Financial Officer in Local Government (2010). The operational management of the organisation's finances is the responsibility of the ESPO Assistant Director (Finance) who is functionally accountable to the Chief Financial Officer.

- Leicestershire County Council acts as the servicing authority to ESPO and in this role provides appropriate support services under terms agreed in a Memorandum of Understanding including internal auditing which operates to standards set out in the 'Code of Practice for Internal Audit in Local Government'.

- The consortium maintains an objective and professional relationship with external auditors and statutory inspectors and conducts the financial management of the consortium in accordance with the financial regulations of Leicestershire County Council. The financial position of the organisation is accurately and reliably reported in performance reporting and other published statements.

- ESPO promotes sustainability through its consultancy services, procurement recommendations and by clearly identifying products in its catalogues which are recycled, biodegradable, energy efficient, low polluting and reusable.

Review of effectiveness

ESPO has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of the executive managers within the organisation who have responsibility for the development and maintenance of the governance environment, the Head of Leicestershire County Council Internal Audit's annual report, and also by comments made by the external auditors and other review agencies and inspectorates.

The process that has been applied in maintaining and reviewing the effectiveness of the governance framework includes:

- The member authorities have appointed a joint committee for the purpose of managing ESPO, known as "The Management Committee" which consists of up to three elected councillors from each member authority who meet four times each year. This committee's responsibilities include overview, scrutiny and audit. The Management Committee is responsible for determining the consortium corporate governance arrangements and follows the framework and guidance issued by CIPFA.

- The Director's Annual Report and periodic Progress and Financial Reports to the Management Committee assess performance against the organisation's business plan, performance targets and agreed objectives. Financial budgets are prepared annually by ESPO senior management for Committee approval. Major risks to the organisation are assessed by senior management and appropriate action is taken where risks exceed the approved risk threshold. ESPO management reports progress on managing business risks to Committee annually. Requests for committee approval of key development projects include a comprehensive risk assessment within the business case. A business continuity plan is being developed which will define how the organisation will maintain its business and supports member authorities in the event of an incident, either to its business or that of a member authority

- The quality and effectiveness of ESPO systems of internal control is monitored by Leicestershire County Council (LCC) Internal Audit. A four year audit plan is agreed with the Director of ESPO from which the annual workload is identified. The audit reporting process requires a report of each audit to be submitted to the relevant Divisional Manager and Director. Recommendations for improvements are included in an action plan and require agreement or rejection by managers. The process includes reviews of recommendations to ensure that they are implemented. A summary of all internal audit recommendations is reported to the Management Committee together with an update on implementing their recommendations.

- The work of LCC Internal Audit Section is subject to review by the ESPO's external auditors to the extent necessary to place reliance on the work carried out by the section.

- A Chief Officer Group consisting of Chief Officers from each member authority was established in 2010/11 and meets quarterly or more frequently where appropriate. The role of this group is to oversee the strategic direction of the organisation and strengthen the working arrangements between member authorities and with ESPO.

- A Senior Officer Group consisting of senior managers from each member authority meets regularly with ESPO senior management to review matters of common interest in order to ensure that procurement plans, policies and objectives of ESPO and those of its member authorities are compatible.

- Partnership Improvement Agreement (PIA) meetings are held regularly between senior managers of ESPO and individual member authorities for an operational review of service performance in meeting the needs of each individual authority.

- ESPO Senior Management Team (SMT) meets weekly to review progress against targets on key business performance indicators, to review periodic financial statements and to consider progress on key development projects. When operationally required, the SMT may determine, agree and instigate immediate corrective actions to promote success or correct underperformance.

- A Business Strategy Review of the organisation commenced in December 2010 by Deloitte Consultants at the request of the Management Committee. The aim of the review was to investigate the appropriateness of the current business strategy, reviewing the role and purpose of ESPO, its alignment with the members' requirements, the value of partnering with ESPO, and the options going forward. This resulted in a revised vision and service model being proposed together with a number of recommendations to improve the operational efficiency and effectiveness of ESPO

- Following the completion of the Business Strategy Review in April 2011 and its subsequent recommendations, the Chief Officer Group (COG) and the Management Committee agreed to establish a change programme. This constituted the mandate for the Programme. An Outline Implementation Proposal was developed and approved by the Management Committee in June 2011. It was agreed that the COG would constitute the Programme Board to make key decisions and oversee the monitoring and review the progress made.

- A formal change program commenced in September 2011 which encompasses the constitution, governance and risk management, organisational structures and capabilities, performance management framework, business model and category management approach. The planned timescale for determining strategies, governance arrangements and for implementation extends until September 2012.

- During 2010/11 the understanding of risk in the organisation has been extensively reviewed and organisation changes are being put in place. For 2011/12 onwards procurement projects will be managed through a business case process where costs, resources, risk, intended outcomes, etc. are assessed through a compliance process. Where abnormal risk is assessed such projects will be escalated to the Senior Management and ultimately to the Management Committee where deemed necessary.

- For 2011/12, performance will be clearly set out and measured in the annual cycle of service reviews and reports, in the financial planning and budgeting cycle and in annual customer surveys. The Management Committee role will be to monitor and scrutinise progress against targets and performance in key areas, and to consider and approve corrective action where necessary.

We have been advised on the implications of the result of the review of the effectiveness of the governance framework by the Director and Senior Management Team and a plan to address weaknesses and ensure continuous improvement of the system is in place.

Significant governance issues

No.	Issue	Action
1	The recommendations of the Business Strategy Review carried out by Deloitte in 2010/11 required implementing. A Change Management Programme commenced in September 2011 in conjunction with officers from member authorities to implement the revised vision and service model and to improve operational efficiency and effectiveness	To present the recommendations of the Change Management Programme to the Management Committee for approval during 2011/12 and to implement the agreed changes by September 2012.
2	To effectively manage the risks associated with procurement projects	To implement a business case process for procurement projects where costs, resources, risk, intended outcomes, etc. are assessed through a compliance process.

We propose over the coming year to take steps to address the above matters where appropriate to further enhance our governance arrangements. We are satisfied that these steps will address the need for improvements that were identified in our review of effectiveness and will monitor their implementation and operation as part of our next annual review.

Signed:

D. Summersgill

Independent Auditor's Report to the Members of Eastern Shires Purchasing Organisation

We have audited the financial statements of Eastern Shires Purchasing Organisation for the year ended 31 March 2011 which comprise the Comprehensive Income and Expenditure Statement, the Movement in Reserves Statement, the Balance Sheet as at the end of the period, the Cash Flow Statement, the accounting policies and the related notes. The financial reporting framework that has been applied in their preparation is the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom supported by the Best Value Accounting Code of Practice 2010/11.

Respective responsibilities of the Consortium Treasurer and auditors

As explained more fully in the Statement of Responsibilities for the Statement of Accounts set out on page 6, the Consortium Treasurer is responsible for the preparation of the financial statements in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom and the Best Value Accounting Code of Practice 2010/11 and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for Eastern Shires Purchasing Organisation's members as a body in accordance with the Audit Commission Act 1998 and for no other purpose, as set out in paragraph 48 of the Statement of Responsibilities of Auditors and of Audited Bodies, published by the Audit Commission in March 2010. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Organisation's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Organisation; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the explanatory foreword to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the Organisation financial statements:

- give a true and fair view of the state of the Organisation's affairs as at 31 March 2011 and of the Organisation's income and expenditure and cash flows for the year then ended; and
- have been prepared in accordance with the requirements of the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom and the Best Value Accounting Code of Practice 2010/11.

Certificate

We certify that we have completed the audit of the accounts of Eastern Shires Purchasing Organisation in accordance with the requirements of the Audit Commission Act 1998 and the Code of Audit Practice issued by the Audit Commission.

Notes:

(a) The maintenance and integrity of the Eastern Shires Purchasing Organisation website is the responsibility of the Organisation; the work carried out by the auditors does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the website.

(b) Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Conclusion on the Organisation's Arrangements for Securing Economy, Efficiency and Effectiveness in the Use of Resources

Organisation's responsibilities

The Organisation is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor's responsibilities

We are required under Section 5 of the Audit Commission Act 1998 to satisfy ourselves that the Organisation has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The Code of Audit Practice issued by the Audit Commission requires us to report to you my conclusion relating to proper arrangements, having regard to relevant criteria specified by the Audit Commission.

We report if significant matters have come to our attention which prevent us from concluding that the Organisation has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Organisation's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Basis of conclusion

We have undertaken our audit in accordance with the Code of Audit Practice, having regard to the guidance on the specified criteria, published by the Audit Commission in October 2010, as to whether the Organisation has proper arrangements for:

- securing financial resilience; and
- challenging how it secures economy, efficiency and effectiveness.

The Audit Commission has determined these two criteria as those necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether the Organisation has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2011.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether, in all significant respects, the Organisation had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

Conclusion

On the basis of our work, having regard to the guidance on the specified criteria published by the Audit Commission in October 2010, we are satisfied that, in all significant respects, Eastern Shires Purchasing Organisation put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ending 31 March 2011.

Opinion on other matters

In our opinion, the information given in the explanatory foreword for the financial year for which the accounting statements are prepared is consistent with the accounting statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the governance statement on which we report to you if, in our opinion the governance statement does not reflect compliance with 'Delivering Good Governance in Local Government: a Framework' published by CIPFA/SOLACE in June 2007.

GLOSSARY OF TERMS

ACCOUNTING POLICIES
The specific principles, bases, conventions, rules and practices applied in preparing and presenting financial statements.

ACCRUALS
Requires that costs and revenues are recognised in the accounts when incurred or earned not when money is received or paid.

AMORTISED COST
The amortised cost of a financial asset or financial liability is
- the amount at which the asset or liability is measured at initial recognition (usually "cost")
- minus any repayments of principal,
- minus any reduction for impairment or un-collectability, and
- plus or minus the cumulative amortisation of the difference between that initial amount and the maturity amount.

BALANCE SHEET
The Balance Sheet represents the organisation's financial situation as at the Balance Sheet date.

The Balance Sheet is composed of two main parts:
• Net Asset and; • Total Reserves.

CASH AND CASH EQUIVALENTS
Cash is represented by cash in hand and deposits with financial institutions repayable without penalty within 24 hours. Cash equivalents are investments of less than 3 months from acquisition that are readily convertible to known amounts of cash with insignificant risk of a change in value.

CAPITAL EXPENDITURE
Capital expenditure represents expenditure on the construction, acquisition, development or improvement of Property, Plant and Equipment and of Intangible Fixed Assets.

CAPITAL RECEIPTS
Income received from the sale of capital assets.

COMPREHENSIVE INCOME AND EXPENDITURE ACCOUNT
A summary of the resources generated and consumed by the organisation in the year. It summarises trading income and expenditure for the relevant financial years of all functions for which ESPO is responsible.

CASH FLOW STATEMENT
The Cash Flow Statement summarises the inflows and outflows of cash and cash equivalents resulting from operations and from investing and financing activities. It also shows how the net cash flow from operations is related to the Net Surplus or Deficit on the Provision of Services.

CIPFA
The Chartered Institute of Public Finance and Accountancy is the lead body for setting standards in the public sector accounting practice.

CONTINGENT LIABILITIES
Contingent liabilities are possible future liabilities that will only become certain on the occurrence of some future event. A contingent liability is less certain than a provision: the latter is expected to occur, a contingent liability might occur.
Contingent liabilities are not shown in the Balance Sheet, but must be disclosed in the notes.

CREDITORS
Creditors are financial liabilities arising from goods or services that have been received but for which payment has not been made by the Balance Sheet date.

CURRENT ASSETS / LIABILITIES
Current liabilities are the debts the organisation owes which must be paid within one year. They are the opposite of current assets. Current Assets are assets that can be convertible in to cash at short notice.

DEBTORS
Debtors are amounts owed to the organisation where the services and goods have been delivered but payment has not been received by the Balance Sheet date.

DEPRECIATION
Depreciation is a non cash expense that reduces the value of an asset as a result of wear and tear, age or obsolescence.

FAIR VALUE
Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS)
A statement of common accounting practice, devised by the International Accounting Standards Board, which is applicable to the majority of large organisations, both within the public and private sector.

GENERAL FUND
This is the organisation's main revenue fund. It provides the resources necessary to sustain the day-to-day business activities and thus pays for all administrative and operating expenses.

IMPAIREMENT
A loss in the value of a fixed asset, arising from physical damage such as a major fire or a significant reduction in market value.

INTANGIBLE FIXED ASSETS
Non financial fixed assets that do not have any physical substance but are identifiable and are controlled by the organisation through custody or legal rights (e.g. purchased software licences).

LEASING
A method of financing the acquisition of assets for e.g. equipment, vehicles and plant etc.

There are two forms of lease:

A **finance lease** involves payment by the lessee (the user) of the full cost of the asset together with a return on the finance provided by the lessor, usually payable over the anticipated life of the asset.

An **operating lease** involves the payment of a rental by a lessee for a period, which is normally less that the useful economic life of the asset.

LONG TERM BORROWING
Loans raised to finance capital spending which have still to be repaid

MOVEMENT IN RESERVES STATEMENT
This statement represents the changes in the organisation's financial resources over the year and is analysed in to "usable reserves", those that can be applied to fund expenditure and "unusable reserves".

NET BOOK VALUE
This is the asset's original cost less the depreciation and amortisation.

NET WORTH (NET ASSETS/LIABILITIES)
This is the value by subtracting the total liabilities from the total assets in the Balance Sheet.

NON CURRENT ASSETS
An asset which is not easily convertible to cash within twelve months. Examples include Fixed and Intangible assets.

PROVISIONS
A provision is a liability of an uncertain timing or an amount.

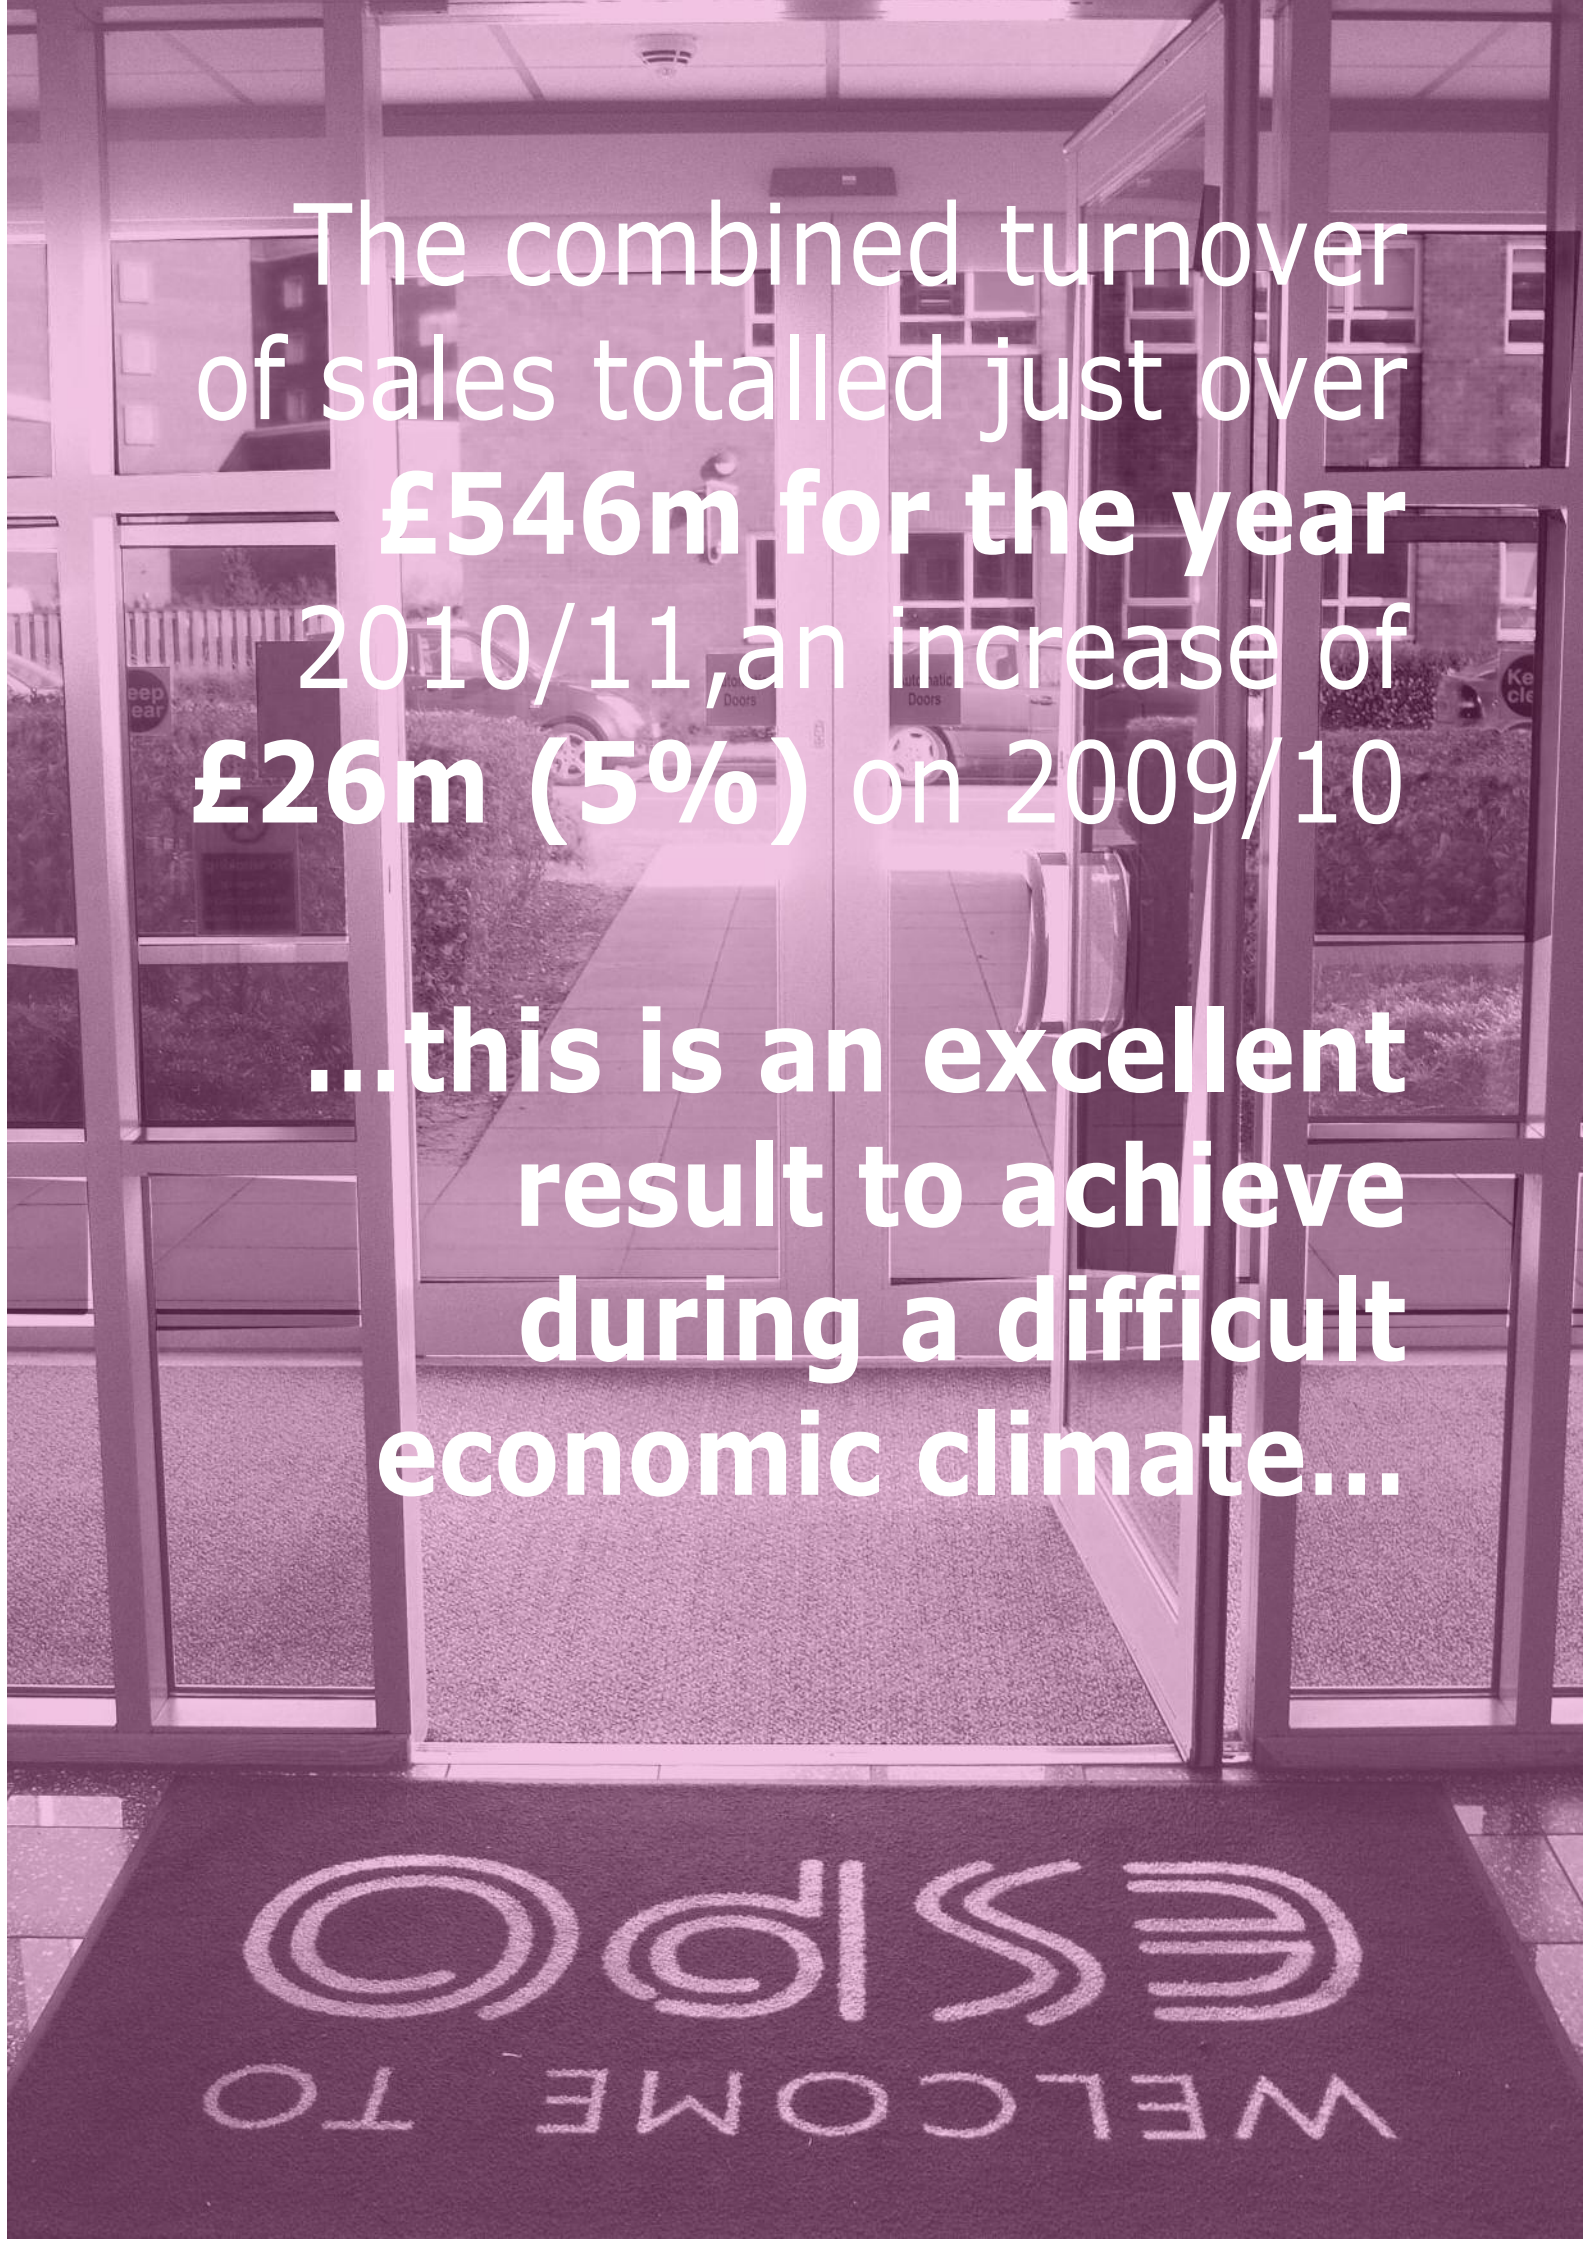
PUBLIC WORKS LOAN BOARD (PWLB)
The Public Works Loan Board is a government agency which provides long term loans to local authorities, usually at advantageous interest rates.

REMUNERATION
All sums paid to an employee, including expenses, allowances and redundancy payments chargeable to UK income tax, and the monetary value of any other benefits received other than in cash.

REVENUE
Expenditure that ESPO incurs on the day to day costs of its goods and services including purchases for resale, salaries, premises costs, vehicles and other running expenses as well as charges to provide funds for renewals of non-current assets. This expenditure is funded from income generated from the supply of goods and services to customers.

UNUSABLE RESERVES
Unusable reserves are those which do not represent funding that is available to support service delivery. These reserves generally arise from statutory adjustments and the treatment of unrealised changes in the value of assets or liabilities.

USABLE RESERVES
A usable reserve represents resources the organisation can control in making service delivery decisions. Each usable reserve may have different restrictions upon its potential use, dependent upon decisions made by the organisation.



The combined turnover of sales totalled just over **£546m for the year** 2010/11,an increase of **£26m (5%)** on 2009/10

...this is an excellent result to achieve during a difficult economic climate...
