

How to guide...

1. Find a stick approx. 12cm long or however long you want to make your tree decoration.

2. Cut off pieces of festive ribbon and tie them around the base of your stick so that the knots are in the middle. You can use the same colour ribbon or alternate colours to give a different pattern.

3. When you've finished tying your ribbons, take some scissors and carefully cut each side of your ribbon on a diagonal so that the ribbon is longer at the bottom, getting shorter as you go up the stick to make a tree shape.

4. Finish off by adding a sequin star at the top and secure gold or silver twine with glue to form your hanging loop.

What you can use ...
