

How to guide ...

1. Cut black card into strips measuring 1½" x 4". Cut various coloured card into strips 1" x 8½". The more strips you cut the more bulbs you'll have on your bunting.

2. Make a mark along your black card every half inch and then fold the card at each mark (we found it easier to score a line every half inch but this is not essential). Using a hole punch or similar, add a hole to sections 3 and 6 of the black strip before gluing the ends together to create little 'tunnels'.

3. Whilst the glue dries, take a strip of coloured card and lightly fold in half. Holding the top ends together press up on the fold lightly to make the shape of the bulb.

4. Holding the top ends together – hole punch and then insert one of the coloured strips inside one of the black card 'tunnels' so the holes line up. Thread twine through the four holes to secure your 'bulb' in place.

What you can use ...

A4 Assorted Vivid Card

212245 Pack of 500 sheets £16.40

For more paper and card see pages 25-30

Brown Jute String

102539 250g £0.98
